Glass Art: 112 Contemporary Artists

Synopsis

More than 590 brilliantly detailed photos capture the work of 112 glass artists and show the tremendous diversity, depth, and breadth of how this ancient medium is used in the twenty-first century. New and emerging glass artists are featured together with some well-known experts, and all of them challenge the boundaries of familiar techniques. Many of these artists also teach or continue research into the capabilities of glass. Many have won major awards; still others have been the subject of media attention; and many are mentors and leaders of contemporary glass art. Their towering installations, miniscule insects, glass kimonos, and more will inspire everyone interested in appreciating, working with, or collecting glass.

Barbara Purchia is an award-winning stained glass artist and has edited many of Rooney's artist series books. E. Ashley Rooney has compiled dozens of books on contemporary art and architecture.

This is a wonderful book, the layout and images are fantastic, it is very well edited and compiled!

A lot of obscure artists included and major ones left out

I just discovered this fantastic book. How exciting it was to see many NEW artists in its pages and not just the giants in glass art. Personally, I like to see who is leading the field stylistically into new

areas .I also like how these two authors have a diversity of subjects, styles, and artists. Certainly, glass artists have created some of the most spectacular objects on earth. Whether its beauty comes from color, form, or concept. Rooney & Purchia selected a phenomenal, eye-opening list of artists to display.

Beautifully edited, wide selection of well known as emerging glass artists from around the world.
