The Corrected And Updated Anarchist Cookbook

Synopsis

Up to version 2.0. New stuff on psychedelic mushrooms, alcohol, and other additions. Chloroform synthesis corrected; It's 80 ml acetone per gallon bleach, less acetone than I said in earlier editions! Use and availability of solvents; how to make chloroform out of bleach and acetone. Making the explosive tetryl out of p-DMAB. (Sorry, I made a mistake; it's not a sunblock), picric acid out of Aspirin, and lots more.

Customer Reviews

Shorter than I remember, needs more content.

This particular rewrite of the original book of recipes is more along the lines of ways to make explosives & detonators, but it still contained a few of the original recipes. Pretty interesting read never the less. Thank you and it is worthy of the price.

Fun read and interesting

Pretty legitimate, and a good read. Really insightful to the working of urban guerrilla warfare.

Not what I expected, not descriptive about anarchy.

Pretty humdrum considering the hype over the years. Finally read it, and it is all info now on internet for free as I feared.

This thing is not worth the paper it was originally written on. Please do not waste your time.

makes nice reading if your into this type stuff
