"The inventive approach to the ABCs could hardly be more attractive." Publishers Weekly --This text refers to the Library Binding edition.

Wonderful book for the classroom or for home. This is a fun book to read and then have the child(ren) guess why "Q is for Duck". After reading, you can ask the child(ren) to make their own page about themselves and what letter could they use for their name: (eg. A is for Mrs. _____)

because she likes Art). My class created a class book of their own based on the concept of this book.

Causes children to interact and think. Great for preschool kindergarten.

My grandson, almost 3, loves this book! He quickly caught on to the idea of how a letter could be related to something that doesn't even start with that letter. The text is repetitive and organized on the page in the same fashion for each letter which encourages an early reader to quickly become successful in adding this book to those he/she can read alone. The alphabet is out of order which can help a child who is not yet recognizing the letters out of order. It is a fun book and just the right size for little hands to hold.

I bought this for my granddaughter because my daughter (age 36) swears this book helped her learn to read!

Love this book!

I bought this book because it was used in a lesson I was teaching to my kindergartners. I love it. It inspired by kids to think about what might go with the animal that starts with a particular letter. They did a great job and were really problem solving trying to figure out what the animal might do that started with the same letter.

I love this book. I read it for many years to my kindergarten students, bought it for my own grandchildren, and now give it to friends when they first become grandparents.

Great book!
