Customer Reviews

Change is the only constant thing in this world and I think it's inevitable that

authors would somehow follow the trend when they weave stories in their fictive minds. This book is a stunning example for that. Anyone with a smart phone or a tablet/ipad would have to, at some point in their techie lives, have come across this game called, MINECRAFT. I

haven't played it nor have downloaded it but it's pretty much visible on any app store as it's one of the top downloaded games, both mobile and tablet devices. I don't know much of the game or the story behind it but going back to my earlier premise, it is inevitable that authors would choose an avenue where they could still penetrate the readers by making use of what's the "current hype" without sacrificing the quality of work they do. This comic book, if accessed by many, has high chances of enticing more readers (young and young-at-heart-alike) to practice reading and promote it at the same time because of the involvement of new characters that are, again, the "current hype". And if it's anything similar like this comic book; good story depicting a moral lesson in the end, good writing, and very good visuals to back it up, then most likely readers who love the game such as Minecraft, would eventually buy and support any goods, may it be in the form of books, shirts, watches, among others, related to their favorite game. A very good marketing strategy, indeed!

Minecraft has been around for longer than I can remember. I personally have not played it because the graphics are not to my liking. I do, however, read the little comics that people put up about the game and various characters in it from time to time. This book is all about the Creeper, a character who just loves to give himself trouble. The setting is around Christmas time and basically he is being invited to have Christmas dinner. He is still his troublesome little self though. The book was entertaining and quite witty. Minecraft lovers will truly appreciate this book. It is right in time for the Christmas season.

I was easily captivated by this cute little short story by Funny Comics. The characters were funny and sweet, giving a lively festive feel to the whole story. Although I was confused that the Creepers were in different colors, I was still entertained by the smooth flow of the story line. The story shows us that being good has lots of benefits, and that the true meaning of Christmas is simply about spending time with the people you love, and looking back at all the good things that happened. I also loved the sweet ending to the story, ending with the friendly Creeper's wish.

It is always interesting to read these funny comics the storyline is always a lesson one can learn

from, and this one is seeing Christmas through the mind of a mine creeper and his friends as they document their daily activities. The mine creeper and Chris got his family to believe in Christmas, reminding us of what Christmas really stands for ,sharing and caring for families and friends. This book contains link to other mine-creeper adventures a nice book to teach kids about sharing

This short story is very interesting to read. It is well-written and being conveyed in a diary style of narration. The storyline which centers on the idea of Christmas is very reflective on how we should celebrate Christmas. Very light and easy to read, this book is successful in getting across the primary reason why we should celebrate Christmas in our own small ways.

I got this for my son for Christmas. He enjoyed it!

This book is easy to read yet fun to a large range of kids from second graders to fifth graders. It also gives your child positive thoughts about true friendship. This book is strongly recommended for reluctant young readers. I like the the chapter books better than the comic books so could you try not to make the comics? Thank you and this book is a MUST-READ!!!
