Customer Reviews

I was looking for a textbook like that for a long time! Great success with my 10 yo daughter. She loves this book!

We just started and we like it.

Note: this is a first impression review. I will update it once we finish the book. The book itself is pretty large and has a nice soft cover. The activities in the book vary greatly, which I personally like. It will not be boring. I plan to use this with my third and fifth graders, who are already starting to read Russian. I think this will be a great supplement to our class. If you, as a parent or teacher, do not read Russian, you might want to purchase the teachers book as well. This is the student book only.

I love it! It is a bit challenging for my 5 year old but we are making progress. The approach is very

similar to what you would see in a U.S. elementary school but everything is in Russian. The activity book is printed on very high quality paper.
