DBT[®] Skills In Schools: Skills Training For Emotional Problem Solving For Adolescents (DBT STEPS-A) (The Guilford Practical Intervention In The Schools Series)

Synopsis

Dialectical behavior therapy (DBT) skills have been demonstrated to be effective in helping adolescents manage difficult emotional situations, cope with stress, and make better decisions. From leading experts in DBT and school-based interventions, this unique manual offers the first nonclinical application of DBT skills. The book presents an innovative social-emotional learning curriculum designed to be taught at the universal level in grades 6-12. Explicit instructions for teaching the skills--mindfulness, distress tolerance, emotion regulation, and interpersonal effectiveness--are provided in 30 lesson plans, complete with numerous reproducible tools: 99 handouts, a diary card, and three student tests. The large-size format and lay-flat binding facilitate photocopying; purchasers also get access to a Web page where they can download and print the reproducible materials. This book is in The Guilford Practical Intervention in the Schools Series, edited by T. Chris Riley-Tillman.

Customer Reviews

"Consistent with DBT and dialectics, the authors have found an ingenious way of expanding the reach and implementation of DBT skills to the universal population of adolescents in educational settings. The DBT STEPS-A curriculum offers a fabulous upstream approach for all adolescents to develop DBT skills and reduce the likelihood of emotionally dysregulated behaviors. Your ability to take this book and use it to teach schoolchildren a wealth of effective life and emotion

regulation skills has the possibility of helping more than you can imagine."--from the Foreword by Marsha M. Linehan, PhD, ABPP, Professor and Director, Behavioral Research and Therapy Clinics, University of Washington; developer of DBT "A truly wonderful curriculum to support social-emotional learning (SEL). The authors give school personnel needed tools to teach SEL skills both universally and to targeted high-risk students. The manual is clear, concise, and comprehensive, while providing enough flexibility that school-based mental health professionals and teachers can adapt it to their schools' particular needs. This book is an important resource for anyone who is charged with helping students to become more emotionally adept, manage stress, and live more balanced lives."--Michael Hollander, PhD, Director of Training and Consultations, East DBT Services, McLean Hospital; Department of Psychiatry, Harvard Medical School "The authors of this groundbreaking book--all DBT experts--have done something no one else has done before: created a curriculum based on DBT skills that can be used with a broad range of middle and high school students. The curriculum is presented in a highly structured, useful, and practical manner. As most mental health services for youth are delivered in schools, this book should be required reading for all school-based mental health professionals, teachers, and school administrators."--David N. Miller, PhD, Division of School Psychology, University at Albany, State University of New York; President, American Association of Suicidology "DBT STEPS-A offers school administrators and school-based mental health professionals a skills-based emotion regulation curriculum for students in general education and/or alternative school-based settings. The structured lesson plans and student worksheets facilitate implementation for general education teachers and school-based personnel. The curriculum is ideal for use at the levels of both prevention and intervention in the framework of a multi-tiered system of support. The book clearly spells out the theoretical basis and rationale for the approach, and shows how to teach DBT skills in a way that students and parents can understand. Schools are often at a loss for how to help students with varying levels of complex social-emotional and behavioral problems--DBT STEPS-A addresses this need."--Ameet N. Boleigh, EdS, NCSP, school psychologist, Aiken County Public School District, South Carolina "I have used DBT STEPS-A the last 2 years with sixth, seventh, and eighth graders. In my 36 years as an educator I have used many programs, and this one is the most comprehensive and powerful. I surveyed one of my eighth-grade classes, and 96% of the students said they would use the skills they learned. Imagine students learning that their thoughts and feelings can lie to them in a crisis situation, and gaining the skills to successfully deal with their issues. My district and others cannot afford to be without DBT STEPS-A."--Richard Jones, MEd, school counselor, Maple Grove School, Battle Ground, Washington

James J. Mazza, PhD, is Professor in the College of Education at the University of Washington, where he teaches and conducts research in the field of adolescent mental health. Dr.

Mazza's research focuses particularly on adolescent internalizing disorders, such as depression, anxiety, posttraumatic stress disorder, exposure to violence, and, especially, suicidal behavior. His work also examines the complex relationships among adolescent mental health issues, social-emotional abilities, and academic skills through multi-tiered systems of support. Dr. Mazza has written extensively on how to identify youth who are at risk for suicidal behavior, as well as on how to develop social-emotional learning (SEL) curricula to help all students learn emotion regulation skills. He has worked with over 30 school districts and thousands of school personnel in developing and implementing comprehensive school-based suicide identification and prevention strategies for adolescents. Dr. Mazza also provides consultation and training to school personnel internationally on implementing DBT STEPS-A in schools, on developing mental health intervention services within multi-tiered systems of support, and on integrating SEL curricula as a part of a school system's role in educating the whole child. He is the co-owner of a private practice in Seattle, Washington. Elizabeth T. Dexter-Mazza, PsyD, is the co-owner of a private practice in Seattle, Washington, where she conducts comprehensive dialectical behavior therapy (DBT) and skills-based coaching for adolescents and adults and provides parent coaching and support to family members and friends of individuals with emotion dysregulation. Dr. Dexter-Mazza provides training and consultation to schools, mental health agencies, and individuals in implementing DBT skills and therapy. She is also a trainer for Behavioral Tech, a company that offers DBT trainings to mental health professionals around the world. Dr. Dexter-Mazza completed her postdoctoral fellowship under the direction of Marsha M. Linehan at the Behavioral Research and Therapy Clinics (BRTC) at the University of Washington. She served as Clinical Director and a research therapist at the BRTC for Dr. Linehan's research studies, which provided both individual DBT and DBT group skills training. Dr. Dexter-Mazza has published several book chapters and peer-reviewed articles on DBT, borderline personality disorder, and graduate school training in managing suicidal clients. Alec L. Miller, PsyD, is Co-Founder and Clinical Director of Cognitive and Behavioral Consultants, White Plains and New York, New York, and Clinical Professor of Psychiatry and Behavioral Sciences at Montefiore Medical Center/Albert Einstein College of Medicine, Bronx, New York. Dr. Miller served for over 20 years as Professor of Clinical Psychiatry and Behavioral Sciences, Chief of Child and Adolescent Psychology, Director of the Adolescent Depression and Suicide Program, and Associate Director of

Psychology Training at Montefiore Medical Center. He is a scientific advisor to the American Foundation of Suicide Prevention and the National Educational Alliance of Borderline Personality Disorder, a Fellow of the American Psychological Association, and past Chair of the International Society for the Improvement and Training of DBT. He has published numerous peer-reviewed journal articles, book chapters, and books on topics including DBT, adolescent suicide, childhood maltreatment, and borderline personality disorder. He is the coauthor of DBT[®] Skills in Schools, DBT[®] Skills Manual for Adolescents, and Dialectical Behavior Therapy with Suicidal Adolescents. He has conducted over 400 lectures and workshops around the world, training thousands of mental health professionals in DBT.

Jill H. Rathus, PhD, is Professor of Psychology at Long Island University Post, where she directs the DBT scientist-practitioner training program within the clinical psychology doctoral program. She is also Co-Director and Co-Founder of Cognitive Behavioral Associates, a group private practice in Great Neck, New York, specializing in DBT and cognitive-behavioral therapy (CBT). Her clinical and research interests include DBT, CBT, adolescent suicidality, intimate partner violence, anxiety disorders, and assessment. Dr. Rathus has developed and conducted programs in DBT for adolescents and adults as well as males referred for intimate partner violence, and has received foundation and university funding to study, adapt, and develop assessment tools for DBT. She has published numerous peer-reviewed articles and chapters on DBT, adolescent suicide, couple therapy, intimate partner violence, personality disorders, assessment, and anxiety disorders. She is the coauthor of books including DBT[®] Skills in Schools, DBT[®] Skills Manual for Adolescents, and Dialectical Behavior Therapy with Suicidal Adolescents.

Heather E. Murphy, PhD, NCSP, has a private practice in Seattle, Washington, where she works with self-harming and suicidal adolescents. She is adjunct faculty in educational psychology at the University of Washington. Dr. Murphy previously worked as a school psychologist in elementary, middle, and high schools for 7 years. During that time, she developed districtwide procedures for intervening with suicidal youth and standard practices for responding to a suicide. Dr. Murphy's research, publications, and clinical work focus on adolescent mental health, LGBT youth, and suicide intervention with adolescents.

I was hoping for more stuff I could use with younger kids, but otherwise it is great!

Well laid out curriculum. Can't wait to use it next school year!

Great for my toolbox in working with adolescents.

Great resource for schools!

AAAA+++

This is an amazing book. It is not often that a book comes along that changes one's world-view. I like most every book put out by Guilford Press and this one is no exception.

This is an awesome book!

Great resource to enhance your DBT skills.
