Synopsis

This easy-to-follow book shows youngsters and other would-be artists how to use simple shapes to draw realistic likenesses of nature's loveliest blossoms. Simple step-by-step diagrams make it easy to draw 30 different types of flowers, including daisies, bluebells, buttercups, roses, tulips, violets, morning glories, daffodils, pansies, zinnias, and many others. Once the drawings are completed, students can color them to create lovely effects. They can also combine drawings of several flowers on one sheet of paper to produce a beautiful bouquet they'll be proud to show family and friends.

Barbara Soloff Levy has created over two dozen "How to Draw" guides for Dover, plus many other activity books. Since retiring from her job as an elementary school art teacher, she devotes much of her time thinking up new ideas for this popular series.

Very simple and easy to follow. I don't know how to draw but I can follow the instructions here and produce something! The illustrations are black and white and there's no written instructions, just images that you follow along. One thing though, I wish that steps use a different color when adding

a new line to know what the new step was. Other than that this is very good. I wouldn't say it is for adult, but if you don't know how to draw and want to start drawing something, this is good.

All the things in the book that it has you to draw are broken down into several steps. After you follow each step you end up with a flower. It's really great. They say you can be taught to draw, that it is not something your born with. After going through this book (several times) I think it might just be possible. I have always wanted to draw but I have NO talent along those lines but after following these steps I did have a fairly nice flower and each time I follow the steps again the flower looks a little more like a flower. It's really been fun. If you've ever wanted to draw this book WILL help. Good Luck and have fun!

To simple for me but would be good for kids

Not impressed. We have a lot of these books and my daughter doesn't really use this one.

my granddaughter loves to draw so this book helps her learn

I purchased this as a Christmas gift for a 5 year old budding (har har) flower artist who tried for several days to teach me how to draw flowers "her way" during a brief visit. We had lots of fun drawing, so I thought she might enjoy this book. Boy was I right! She LOVED it, and I received such positive feedback, I just wish she would stay that age so I don't have to wonder what to get her next year! Her mom said the instructions are easy to follow, and actually seem to incite more creativity, which is awesome!

My granddaughter really like s this book and is putting it to good use.

as expected
