Customer Reviews

Debby Kratovil has published more than 1,000 articles about quilting and has created hundreds of quilts, many of which have been featured on magazine covers. She enjoys teaching, and her students can expect clear instructions, good handouts, and lots of fun.

I like having the capacity to print out the examples from this CD. You could print on cooler paper, or water dissolvable establishment paper and not stress over precision. This is so helpful, simple to utilize, and you don't even essentially require the logbook too.

I was going to buy the paper version of this calendar, but I bought this version because a review said that she likes the cd version because she can print it out. so I bought the cd and really like it

This CD companion to the Block a Day Calendar is great, it just wasn't what I was ordering and ordered it by mistake. I intended to order the Block a Day Calendar instead. Marlene C. Terry

Absolutely love this. I'm a newbie to quilting and this is a perfect learning tool for me. Yes I would recommend this calendar and companion CD to new and advanced quilters. A great gift for quilters in your family

I expected more detailed instructions for the companion Perpetual Calendar. This did not contain those. This is not for beginners. Some knowledge of piecing and block construction is required.

I like being able to print out the patterns from this CD. You could print on freezer paper, or water soluble foundation paper and not worry about accuracy. This is so handy, easy to use, and you do not even necessarily need the calendar as well.

got it a good shape . I love it

good buy
