Special Agent Man: My Life In The FBI As A Terrorist Hunter, Helicopter Pilot, And Certified Sniper

Synopsis

For decades, movies and television shows have portrayed FBI agents as fearless heroes leading glamorous lives, but this refreshingly original memoir strips away the fantasy and glamour and describes the day-to-day job of an FBI special agent. The book gives a firsthand account of a career in the Federal Bureau of Investigation from the academy to retirement, with exciting and engaging anecdotes about SWAT teams, counterterrorism activities, and undercover assignments. At the same time, it challenges the stereotype of FBI agents as arrogant, case-stealing, suit-wearing stiff by portraying the real people who carry badges and guns. With honest, self-deprecating humor, Steve Moore's narrative details his successes and his mistakes, the trauma the job inflicted on his marriage, his triumph over the aggressive cancer that took him out of the field for a year, and his return to the Bureau with renewed vigor and dedication to take on some of the most thrilling assignments of his career.

After joining the FBI in 1983, Steve Moore worked as a SWAT team operator, sniper, pilot, counterterrorist agent, and undercover agent, receiving multiple awards from the Department of Justice and the FBI for his investigations. He retired from the FBI in 2008.

Really enjoyed the book. It was like a long "ride along". I felt we got a look into some of our country's most significant FBI investigations along with the toll it takes on family life, which I know first hand as the wife of a LEO (now retired).

Great book. Candid and real look at the life of an FBI agent. Wonderful information for those looking to join such a prestigious organization.

Great book . Could not put down . Real life situations of a very brave and heroic group of men .

A great read. I would definitely recommend it to others. The author brings you into his world and you are definitely moved by his experiences.

I purchased this primarily because it was written by a friend, and found it to be a surprisingly good read! Who would have known that Steve Moore, besides being former FBI, can write and is entertaining. Good job Steve

Mr Moore does not write on the experience of others as the vast majority of writers do.. Steve is the real deal so, when I read this I am getting the inside scoop of how real time Federal agents really do the job and keep me safe while I sleep never knowing what could have happened...till I read the book that is. :-)

Great book
