Important information for anyone, graduate or not.

This is a great book to give to a recent graduate OR even a Junior in High School preparing for graduation. It is a very visual, quick read packed with information on how to start your financial life on the right foot. I'm a huge Dave Ramsey and Rachel Cruze fan already, but this one knocked it out of the park!

Gave as a graduation gift to three different graduates this year. My hopes are that they take what is written to heart. Debt is no way to start out your adult life and this book can be a great help in avoiding that destiny. Our graduates need as much input and encouragement as possible in this ever so skeptical and debt ridden world.

Item arrived on time, well packaged and ready for use. I would definitely order this book for any teen going into college. Have a plan to graduate college without student debt.

This was very informative and thought-provoking for those considering taking out student loans for college. I feel like most people viewing this product would be those already headed into college soon but I hope this book will also find its way into the hands of younger high schoolers who still have years before starting college and therefore are in a good place to make some of the changes and tips from the book effective in their lives.

Excellent read. Picked up a couple copies for nieces who are going to be heading to college real soon. It is well written and an easy read. I read it in a couple hours.

Bought this for a cousin going into college. Very professional and impressive layout. Color pages add to its quality.

Gave it to my grandson who is heading of to College. Kids today need all the help they can get!!!
