Customer Reviews

As previously mentioned, my granddaughter has to read and complete six books per week. This book and the author made the grade. She loved this book about veggies.

I thought this was a very good story with some very good points, so I would like to recommend this for five stars and for kids ages 0-8. This had a lesson for this age group especially that it's much better to eat your veggies and fruit than to have problems arise like this red bird. I received this

ebook for free and in return, here is my honest review GREAT JOB VI! By Angela

Sammy is a very picky about food so his mommy got a good idea and his mother gave him bugs.

My kids (age 7 and 9) love these books! We read a new one before bedtime every night. They are so cute and funny. The kids can't wait to see what that little bird will do next.

Fuggggghhfttuyghfghugfghfgjk fghjjgdfgj hfhjyfv. Hfhhg hgjghyff. Hgguhggghy by gghjyfh hghhgy by the time the book was revealed she had a very long time she said the book is not even the case with a woman that is the most popular book.

Review from my preschooler - I would give it four stars. I love the book because I like the pages in the pictures. The worm hotdogs were a bit icky.

This book was ok but not the best kids book I've ever read or should say book that I've ever read to my grandkids.

There are really funny jokes in this book but only one person talks in this which is disappointing but funny anyway
