Learn How to Quickly Solve Difficult CPA Test Questions Here's a little "secret" about the Uniform CPA Examination: the CPA test is what we in the test preparation field call a "content driven" test. While some tests are looking to see what you are ABLE to learn, the purpose of the Uniform Certified Public Accountant (CPA) Examination, offered by the American Institute of Certified Public Accountants (AICPA), is to test your understanding of what you have already learned. The goal of the CPA test is to use a standardized testing process to create an objective assessment of a test taker's knowledge and skills. In other words, it's more about what you know than your ability to solve clever puzzles. This is good news for those who are serious about being prepared, because it boils down to a very simple strategy: You can succeed on the CPA test and become a Certified Public Accountant (CPA) by learning critical concepts on the test so that you are prepared for as many questions as possible. Repetition and thorough preparation is a process that rewards those who are serious about being prepared, which means that succeeding on the CPA test is within the reach of virtually anyone interested in learning the material. This is great news! It means that if you've been worried about your upcoming CPA test, you can rest easy IF you have a good strategy for knowing what to study and how to effectively use repetition to your advantage. But it also creates another set of problems. If you tried to memorize every single possible thing you can for the CPA test, the field of possible things to review would be so huge that you could not hope to cover everything in a reasonable time. That's why we created the CPA Exam Flashcard Study System: we have taken all of the possible topics and reduced them down to the hundreds of concepts you must know and provided an easy-to-use learning method to guarantee success on the CPA test. We wanted this system to be simple, effective, and fast so that you can succeed on your CPA test with a minimum amount of time spent preparing for it. --Here Are Some of the Features of Our CPA Exam Flashcard Study System Study after study has shown that repetition is the most effective form of learning- and

nothing beats flashcards when it comes to making repetitive learning fun and fast. Flashcards engage more of your senses in the learning process- you "compete" with yourself to see if you know the answers to the questions, and the flipping action gets you actively involved in the learning process. Our cards are printed on heavy, bright white 67 lb. cover stock, and are laser printed at 1200 dpi on our industrial printers- these are professional-quality cards that will not smear or wear out with heavy usage. We cover the major content areas on the exam. Our flashcards include an edge that is micro-perforated, which means that you are much less likely to have a painful papercut on your fingers when moving quickly through the cards. Our cards are portable, making it easy for you to grab a few and study while waiting for the bus or the doctor, or anywhere where you have a spare moment that would otherwise be wasted. Our CPA test cards are written in an easy to understand, straightforward style - we don't include any more technical jargon than what you need to pass the test. The cards are a generous size- 3.67 x 4.25 inches- they fit perfectly in your hands and they aren't so small that you have to use a magnifying glass to read tiny type- all questions and answers are in a normal-size print for easy studying. Our cards include in-depth explanations- you won't see any "one word" answers on our cards that require you to go get a textbook to understand why your answer was wrong- all of our cards include generous, thorough explanations so you not only get it right or wrong- but you also know why! We use a font created by Microsoft to make reading easier- this will enable you to absorb more information painlessly during late night study sessions. Our system enables you to study in small, digestible bits of information- unlike using boring textbooks, flashcards turn learning into a "game" you can play until you've mastered the material. It's easy for a friend to help you study- they don't even have to know anything about the CPA test- if they can read, then they can quiz you with our flashcards! Now, let us explain what the CPA Exam Flashcard Study System is not. It is not a comprehensive review of your education, as there's no way we could fit that onto a single set of flashcards. Don't get us wrong: we're not saying that memorization alone will automatically result in a passing CPA test score- you have to have the ability to apply it as well. However, without the foundation of the core concepts, you cannot possibly hope to apply the information. After all, you can't apply what you don't know. CPA Exam Flashcard Study System is a compilation of the hundreds of critical concepts you must understand to pass the CPA test. Nothing more, nothing less. --If you think there's even the smallest chance that these flashcards will help you, you owe it to yourself to try them out. Don't let fear or doubt stand in the way of your opportunity to achieve the test score you need to fulfill your dreams.

general information only... a repeat of graduate courses in accounting and financial reporting... not

up to date information for cpa exam a general review only not really all that helpful... save your money !

I'll have to wait to see how my daughter does on the CPA exam before I can put a detailed rating. However, the cards came in a large stack like a ream of paper including over 300 study cards for the CPA - so I think I got the most bang for my buck.

The Flashcards provide a fast and affordable way to learn CPA Exam stuff.

Very good detail and content on the cards.

They are not good quality and I'm not finding them to be very helpful. Would not recommend these flash cards.

I just purchased the product recently and I am very pleased. It is very simple and straightforward with great information. So far from what I have seen, it has helped to refresh some topics that were confusing. I also enjoy carrying around the flashcards so I am able to study on my breaks at work.

I REALLY REALLY enjoy using this study system!! I love the lengthy descriptions and answers on the back of the flashcards. I can't wait to take the CPA exam! Thank you! Thank you!!!

The Flash Cards are ideal; they contain accurate, succinct and clear definitions as well as application of the concept.
