Customer Reviews

Stephen Stoker of Weber State University in Ogden, UT, has taught the gamut of introductory chemistry courses, specializing in GOB, for the past 30 years. Weber State has a very large Health Professions school, and GOB is geared at students with little or no experience in chemistry (notably Allied Health and Nursing majors).

Good

Great (used) book. Fairly good condition, got here quickly. Exactly as described. Great price when compared to other competitors!

This was a very great alternative to purchasing the actual text book, I just wish they would make it available on the Kindle App for Windows Tablets... That is my only complaint! It is a lot easier to

haul around my tablet versus my computer, especially to school.

On page 48 practice exercise 2.1 letter d ans is incorrect it should be
5-Methyl-1,3-cyclopentadiene cyclo is left off

Great book. Helped me out a lot in my Biochem class

fantastic condition and the exact edition I needed

quality was as listed I recived it when I was told I would no issues I would buy from this provider
again

Fast postage good product. All good
