Danny And The Dinosaur 50th Anniversary Edition

Synopsis

Danny loves dinosaurs. When he sees one at the museum and says, "It would be nice to play with a dinosaur," a voice answers, "And I think it would be nice to play with you." So begins Danny and the dinosaur's wonderful adventure together! But a dinosaur is no ordinary playmate. Even the most everyday activities become extraordinary, like finding a big-enough place to hide a dinosaur in a game of hide-and-seek and keeping him from knocking over houses with his long tail. But Danny can teach an old dinosaur new tricks. It's the most fun this dinosaur has had in a hundred million years! Originally published as an I Can Read book more than 40 years ago, this classic story is perfect for reading together. Danny's out on the town with a real, live dinosaur. And whether they're eating ice cream or playing hide-and-seek, these two are having one hundred million years of fun - all in one day.

We're big fans of the "I Can Read!" paperbacks, and started to run out of new "My First" level books. I looked at the Level 1, Beginning Reading, books and happened upon these two oldie but goodie books from Syd Hoff. "Danny and the Dinosaur" first came out in 1958, and was followed a year later by "Sammy the Seal". I was delighted to see them reissued as "I Can Read!" books. They are a particularly good deal because they are twice as long as the usual "I Can Read!" books, but are still available at the regular paperback price. In "Danny and the Dinosaur" a kid meets a live dinosaur at the museum and heads out into the City with him for a day of wild/mild adventure. In "Sammy the Seal" a friendly seal who's curious about life is allowed a day out of the zoo so he can

wander around and explore. Both books feature kind and friendly kids, helpful adults, cheerful adventures and no drama. Is this a 50's sort of thing? Well, yes, the books do have a bit of a nostalgic rose-colored-glasses feel to them, but they aren't glaringly old-fashioned and they've actually aged awfully well. So, these are two books that you might recognize from your own childhood library, they aren't franchise or movie tie-ins, they are readable at the recommended new reader level, they are mellow and colorful, and they're upbeat and cheerful. That's not bad at all.

Bought this for a former student who is expecting. This was my favorite book growing up (my dad said he had it memorized) and I read it to my boys a lot too. It is a great beginning reader for children. Highly recommend!

This was one of my favorite books from childhood and now it's one of my 2 yo daughter's favorites too. It is also a great first book to read for elementary school children. (It was one of the first things my siblings and I ever read aloud.) Cute story and I highly recommend it.

I absolutely loved this book as a child. One day it popped into my memory so I set out to try to find it for my little boy. None of the online bookstores had it (B&N, BAM), but did! I was only able to get it in paperback, but I am still on the hunt for it in hardback. It is a story about a boy named Danny who goes to the museum. He sees the dinosaurs and wishes they were alive to play with. And one is! They spend the day together doing many different things, and then the dinosaur goes back home to the museum that night. It is a simple story with very simple illustrations, but still fun. So glad I found this again!

I purchased this for my six year old grandson who loves dinosaurs, he was thrilled with this book and it has easy to read words for him.

I had this book as a kid & I bought it for my daughter for her Easter Basket. She loves Dino's & the book is just as cute as I remember. This one is nice & not too big, & easy to read with a soft cover.

My daughter enjoyed reading this book. I love this book when I was a kid a well. Felt good to relive a moment through my child.

It wasn't in that good a shape and certainly wasn't worth \$15. I saw others on-line less expensive

but bought this one because I thought it would be in better shape. However, the recipient was happy with the book.
