Fate's Keep: One Girl's Journey Through An Unfortunate Series Of Magic Portals (Fate's Journey Book 2)

Synopsis

This epic fantasy sequel to Fate's Fables, promises to leave readers breathless with heart-pounding action, compelling new characters, and a romance that strains the bonds of love to the breaking point. Perfect for fans of Throne of Glass and The Girl of Fire and Thorns. Make-believe sucks. Reality rocks, even if it's boring. That's been Fate Floyd's new motto ever since she escaped the deadly fairy tale world of the Book of Fables. There's nothing pink and sparkly about fairy tales, nor do they guarantee happily-ever-afters. The boy of her dreams, Finn McKeen, remains a prisoner of the cursed book. Miserable about leaving him behind, Fate is bound and determined to free him. Unfortunately, her path back to Finn isn't straight. She must first enter the mysterious Keep through a magic portal, where she's forced to confront the truth of her heritage. With her heart sworn to saving Finn, and an unbreakable oath to guard the Keep, Fate must dig deep for the strength to protect those she loves. Unimaginable creatures of myth and legend threaten to destroy the Keep, while a slumbering evil awakens within the bowels of the arcane storehouse of magical objects. Her only chance for salvation lies in a series of desperate quests through a maze of dangerous portals, each of which may hold the key to her freedom, or mark the end of everything she holds dear. Genre: Young Adult Fantasy Read Fate's Keep today and journey to the ends of the universe, where magic abounds and portals open to otherworldly realms!

Customer Reviews

T. Rae Mitchell's second novel in the Fate's Journey's series is a wonderfully satisfying sequel to Fate's Fables. Mitchell's imagination and unique storytelling style totally blew my mind. In Fate's Keep we are introduced to new characters along with those from the earlier book. My new particular favorite is Farouk, the Caretaker of the Keep, whose humorous convolution and reworking of the ordinary words most of us grew up with is delightfully entertaining as well as inventive. I highly recommend this unusual series to lovers of fantasy young and old.

T. Rae Mitchell writes a fantastical transition between Fate's Fables and this new book: Fate's Keep. The story between Fate and Finn during an ever-changing conflict, is what hooks readers and grasps the imagination in this action-packed adventure. If you're a fan of fairy tales and action, this is the series for you. I wasn't sure how I would feel at first about this red-haired and hot-tempered heroine, but she won my dedication as I became enthralled in the plot and her cause. This is a highly addicting series and be prepared to let the rest of the world go by, while you're transported into another land of wonder and enchantment.

Like book one a little more, but this was a lot of fun. Very imaginative, well written, and does a good enough job of wrapping up this book though there is another to come--waiting, impatiently.

Keeps you coming back for more. Really holds on to you.

I love how the author can mix fantasy and Romans equally. It is absolutely a good read!!! I can't wait for the next book, Fate's War.

I liked it.

I became a fan of Mitchell's with the first in this series, *Fate of Fables*, which ended in such a heart stopping way I found myself constantly checking for when the sequel was going to arrive. It is thankfully here and unbelievably even better than the first. This fantasy hits all the right spots as you're whisked along a new compelling adventure with Fate at the reins. There's plenty of action, romance and her great character development flexes its muscle with new characters to add to her ever growing vibrantly created world. Along with her imagination running rampant in this amazing story you get a first class education in SAT words with the likes of "portrages", "connectifications", "confabulation" and "monstramorphosis"; they're just fun to say out loud. Her incredible lexicon continues in how she uses words to turn printed letters into visual photographs like a slideshow slipping slowly across your mind's eye. She uses metaphors the way a painter uses a brush. Mitchell's use of myths, legends and fantasy elements feel more real than imagined as she pulls you along in this battle for redemption. Her use of credible dialogue adds to that sense of realism as you get pulled into conversations that enrich the tale and further the story. Just like the first, this one ends on a cliffhanger so the story will continue in *Fate's War*. Be prepared to feel your heart break at the impossible decision set before our fearless heroine. By the way for those who have fallen for Mitchell's writing go check out her website to download the Prequel to this series and sign up for her newsletter: traemitchell.com/read-chaos-in-the-keep/

After the first novel ended in such a shocking way, I was glad to see the continuation of a great debut! After barely escaping the book of fables, Fate is back in her world. Desperately wanting to return and help Finn, who is still trapped within the book, Fate will do anything to find her way back. When she is offered the position of guardian of the Keep, Fate takes on the responsibility of protecting the space station, located across the universe, that contains very powerful and dangerous mythical creatures and magical artefacts. Travelling to a new world, Fate must face her destiny, her new unbreakable oath with the Keep and discover the strength to save the people she loves. A new enemy awakens nothing will ever be the same. The plot is nicely developed and it grabs the reader right from the beginning. There is a lot of action, mystery and drama going on, enough to keep me glued to the pages and to make my breathing stop at times. I was surprised with the sci-fi approach in this instalment, it took the adventure a bit further than I was expecting. Between the space station, spaceships, aliens, advanced-technology and guns I felt like I lost a bit

of the connection with the story. I had this cosy feeling with the book of fables and with outer space I didn't feel it at all. Still, it was an enjoyable twist to the first novel. Mitchell did a great job creating this new magical world. The setting is amazing and definitely brings things to another level, I felt the thrill while reading. It's easy to see her deep knowledge and passion of myths and legends and the style of writing is still as beautiful and captivating as in the first novel. The dialogues are brilliant, witty and funny, a joy to read. The introduction of new characters was exciting and it's nice to see how they all have their roles in the story, there are no loose ends, everyone fits into the plot perfectly. I really enjoyed how the real and the fantastic both come together when the characters from both realities meet. I did miss Finn though and his interactions with Fate, I really enjoy them as a couple. Another ending that left me hungry for more! Can't wait to read the sequel Fate's War and see what other adventures await Fate and her friends. This review was originally published on NetGalley.
