

The book was found

Workbook For Successful Nursing Assistant Care

Synopsis

The workbook is designed to help students review what they have learned from reading the textbook. It is organized around learning objectives, which work like a built-in study guide. And the 2nd edition of the workbook includes even more multiple-choice questions. To help students prepare for the certification exam, the workbook contains both a practice exam and a skills checklist section.

Customer Reviews

Hartman Publishing began offering in-service education programs to long-term care facilities and home health agencies in 1994. Students and teachers using our materials benefit from a company focused solely on educating and inspiring caregivers.

Thanks.

Possibly the worst workbook that I've ever seen. Instructors/Administrators out there who are looking for new course materials, the text book is fine, but this matching workbook should be skipped. Not worth forcing your students to spend good money on a worthless item.

Good seller, prompt service and arrival. Material inside book was helpful when taking boards and I got it at a cheap rate as well. I would and do recommend this to others when topic comes up in

conversations.

This item was exactly as described and arrived quickly. I would highly recommend this seller. As far as the content of the book, this is required reading for a class so I didn't have the option of choosing another author.

This seller was great they sent it first class mail and I got my item in less than 4 days. If I ever need to buy anything else I will go through this seller. Thankyou seller for the promptness of getting me my book.

I ordered this along with the book to teach myself in order to challenge the state CNA test. I didn't really use it and it had alot of writing inside and most of the activities were completed.

I wish this workbook provided explanation and solution for the problems we worked on. How are we going to check if we did it right? I find this book not very useful, but very time consuming especially since you cannot check your work.
