The Snapping Of The American Mind

Synopsis

America the beautiful has become America the bizarre. Government openly defies the law, Christians are prosecuted as criminals, children "transition" to the opposite sex, the president supports our enemies - and 130 million Americans depend on mind-altering substances just to get through life. Turbocharged by the Obama presidency, long-coalescing forces of the political and cultural Left are bringing about their much-heralded "fundamental transformation of America". That much everyone knows. But this revolution is also causing a fundamental transformation of Americans - in profoundly negative ways. In *The Snapping of the American Mind*, veteran journalist and best-selling author David Kupelian shows how the progressive Left - which today dominates America's key institutions, from the news and entertainment media, to education, to government itself - is accomplishing much more than just enlarging government, redistributing wealth, and de-Christianizing the culture. With the Left's wild celebration of sexual anarchy, its intimidating culture of political correctness, and its incomprehension of the fundamental sacredness of human life, it is also, whether intentionally or not, promoting widespread dependency, debauchery, family breakdown, crime, corruption, addiction, despair, and suicide. Surveying this growing chaos in American society, Kupelian exposes both the utopian revolutionaries and their extraordinary methods that have turned America's most cherished values literally upside down - to the point that madness is celebrated and normality demonized.

Book Information

Audible Audio Edition

Listening Length: 8 hours and 35 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Books in Motion

Audible.com Release Date: April 7, 2016

& Social Sciences > Politics & Government > Ideologies & Doctrines > Conservatism & Liberalism

Customer Reviews

I found the book to be informative: however it was pretty depressing and discouraging. I liked the parts about how to improve your health and the true messiah.

The author has a well rounded view of the world and is able to communicate it in an interesting way. He sees through the immediate and points out underlying causes and effects of the liberal left. He also looks for answers. These answers not only involve ways to deal with progressives but also the brokenness inside of us all.

I love David Kupelian! He really gets it and the last elections just showed how the American mind has been deceived and duped by liberal media.

Truly shows what goes on behind the scenes. So you either walk by faith or get caught up in the system

This factual and interesting read I believe is excellent reading for all thinking Americans. It was an eye opener to me. He validates all of his points, and though I didn't want these things to be true, they are. Also great suggestions for remedies. Highly recommended.

I was prepared to like this book since I agree that America has significantly deteriorated under liberal progressives. But I found mainly hyperbole, and sweeping generalizations with minimal support. The coverage of the material is a mile wide and half an inch deep. I gave up when I got to page 88 where he describes Obama as a, "...jarringly narcissistic, deceitful, reckless, and corrupt Chicago politician." Oh come on. You might not like him and we may disagree with his values but no redeeming features? This is basically a feel-good book for Obama haters and you will be hard put to find any nuance or depth here. Kuperlian is a journalist and maybe I should not have expected more.

A very good read.

Awesome awesome awesome book. Every American and every human on earth who loves, admires, respects, yearns to be in America, must read this book. Reading this book is crucial to the sanity and freedom of right minded folks.
