Civil Litigation 2016-2017 (Legal Practice Course Manuals)

Synopsis

Civil Litigation introduces students to the processes and procedures involved in making and defending civil litigation claims. The text is ideal for students taking the Legal Practice Course or relevant LLB or LLM modules and features case studies on both a personal injury matter and a commercial matter, making it suitable for students with either a high street or a commercial focus. Following the chronological progression of a civil litigation claim, the book offers practical guidance on advising clients whilst ensuring that the principles of the SRA Handbook and Code of Conduct 2011 are maintained. Students on CILEx courses, new trainees in practice, and paralegals will find this practical guidance of use in both their study and their work. Innovative diagrams at the beginning of chapters clearly illustrate the litigation procedure and help students understand the nature of the process as a whole. Examples provide students with a realistic context for their learning, while issues of cost, best practice, and professional conduct are clearly highlighted. Alternative dispute resolution is given appropriate practical emphasis, and references to the Civil Procedure Rules throughout make sure that students are ready for life in practice. Online Resource Centre Case study documentation to support the fictional scenarios referred to in the book Additional chapters covering injunctions, a practical guide to court hearings, instructions to counsel and enforcements of judgment Annotated forms Appendix - links to key Court forms Litigation train timeline to help students put the litigation process in context Podcasts Updates Weblinks Additional case study materials for lecturers, including suggested answers to case study questions Video clips Test bank of over 50 multiple choice questions
