Life In Ancient Rome (Dover History Coloring Book)

Synopsis

At the peak of its power, the Roman Empire stretched thousands of miles in all directions: north to what today is England, westward to Spain, to Armenia in the east, and Egypt in the south. The growth, development, and cultural achievements of that magnificent civilization are brought to life by the artist John Green in this exciting and fact-filled coloring book. Focusing on a 200-year period in Roman history (100 B.C. to A. D. 100), 41 finely detailed illustrations depict such events as the defeat of Germanic invaders under the leadership of Marius (c. 108 B.C.); the crushing of a slave revolt (71 B.C.); the assassination of Julius Caesar (44 B.C.); and the emperor Nero playing a stringed instrument while Rome burns (A.D. 64). Also included are handsome views of the Colosseum, a Roman villa and banquet, artists at work, and much more. In addition, William Kaufman's clearly written introduction and text provide a wealth of information on Roman religion, society, cultural life, major landmarks, leaders, and daily activities. Fascinating and thoroughly researched, Life in Ancient Rome will appeal not only to coloring book fans of all ages but also will serve as a valuable resource and learning aid for students and history buffs alike.

Customer Reviews

For more than 20 years, John Green has created popular Dover coloring books. He specializes in realistic drawings of people, animals, and places, and his recent titles range from Life in Old Japan

to Dogs to Paint or Color.

Wow, the detail, the accuracy, the range of topics. Adult work with colored pencils... good for history students to relax with.

Another educational double winner. This is another therapy winner and educational payoff as well. Don't miss this way to teach yourself things you have probably forgotten about Rome as well as teaching your younger ones and helping them learn to love history as well.

Great detailed drawings and the bits of history make this a useful teaching tool with my kids.

Very economical. Very good.

The books are written on a easy to follow and understand way, my daughter loves to read and work in the projects.

Used this as a prop as part of a Doctor Who party. It was perfect.
