Customer Reviews

The info is the same only thing different is the artwork on the front cover and the dimensions and weight of the rifle. My main reason for buying this was as reference material which was very helpful.

Good basic introduction to the AR-15 rifle and basic marksmanship. Good for military buffs or historical perspective.

Great book to learn about the M16 rifle

This is a great book to have, it is very informative. Its a no nonsense book (written by the Army.) It explains the inner working steps how the AR works from the time you slap a magazine in. A great explanation on sighting. Its a bit dated, but the infomation is stll great & the price was good also. Anybody that wants to know more about their AR will not go wrong buying this book.

Almost everything possible about the ar15 is in this book. It's well written and heavily illustrated. I

highly recommend it to any ar15 owner!

Essentially a military manual on shooting a M-16/AR-15 in training and combat, I highly recommend the book for a novice.

I love this book good information drills its help and teach you how to handle a Ar15 thanks once again.

this book is the best one i have seen to tell me how to sharpen my skills as a rifleman.
