Christine Lucas is a graduate of the Art Institute of Philadelphia with a degree in Industrial Design. She has been crocheting for over 20 years and creating her own patterns for everything from blankets and animals to fashion items like purses and scarves for nearly 15 years.

I have two nephews who are five and two and I purchased this book to make some creatures for them. (They are big into animals lately since I bought them a membership to the zoo.) I was tired of making afghans, scarves and hats so I decided to give this a try. I've made the snake and I've started the kangaroo on the cover. The snake was pretty easy (no legs or arms!) so that was what I started with. There are various animals: kangaroo, snake, raccoon, squirrel, giraffe, lion. There are some others that are listed in the book description. I really like it because it's something different

that I can crochet. If you're a beginner crocheter, you may have some difficulty at first because there is some decreasing and increasing, different color switching as well as assembly that may be unfamiliar to you. I don't think it's out of reach for beginners but it may be slow going at first. One other thing that I especially liked was that the book gave two illustrations for several of the animals - one example made from the "fun" yarn like the furry stuff and one for the regular, sport-weight yarn. The animals are cute either way but it's nice to see the differences between the two yarns illustrated for you before you begin.

I've made several things from this book and I love it! It's well written, though you may have to substitute yarn since the book has been out for a while.

Great patterns and diagrams, very easy to follow instructions.

Wonderful crochet book with many adorable creatures!

Great patterns, fun animals to make. Love the options with yarns and colors.

Cute animals, easy to follow directions and an easy to locate yarns were used for each animal.

I found these patterns excellent, but because of the double crochet, they are loose and you can see the stuffing. I don't like that so I have tightened them up and revised with some single crochet and they are great.

This book is awesome. I have already completed the kangaroo for my grandson and he won't put it down. Worth every penny.
