Llewellyn Publications has grown and expanded into new areas of personal growth and transformation since it began as the Portland School of Astrology in 1901. Along with the strong line of astrology books the company was founded upon, Llewellyn publishes books on everything from alternative health and healing, Wicca and Paganism, to metaphysics and the paranormal—and since 1994 has published a growing list of Spanish-language titles. Llewellyn has long been known as one of America's leading publishers of New Age books, producing a wide variety of valuable tools for

transformation of the mind, body and spirit. Reach for the Moon-and discover that self-help and spiritual growth is what Llewellyn is all about.

If you believe that the planets play a role in the world at large, this is a great way to know every day when it's time to set the date of your wedding, talk with your employer, sell your house or have that heart to heart talk with your loved one. Weekly forecasts and layman's terms what planets influence certain areas of your life.

I have been buying the Llewellyn Daily Planetary Guide for a decade, and it is the best guide I have ever personally used. It is chock full of useful and educational information, including a complete ephemeris for the year, charts listing important astrological events for the year, and weekly forecasts. Every edition also includes explanations of astrological terms and how they are applied, written by the always entertaining Kim Rogers-Gallagher. She makes learning how to work with astrology on a daily basis easy and fun. Until I read this guide, I had never heard of Opportunity Periods, as explained and included in the daily calendar pages. I have found them to be useful in my life, and enjoy learning more about them from this guide as the years continue.

I buy this every year & use it as a dream diary. Plus, there's plenty of astrological info for those who are into it.

I've been buying and using this extremely useful guide since the 1970s in Portland, Oregon when I was a practicing parapsychologist. It's beautifully efficient for professionals who watch cycles daily. I especially like that the true (not mean) Lunar Nodes, the 5 main asteroids, and Chiron are included in the ephemeris in the index pages. And the daily lunar machinations listed on the daily pages are priceless. The whole package is balanced well for users who know what they're doing. Yet motivated novices can get a lot from this guide from day one.

The one and only, indispensable astrologer's reference. I've been buying this guide yearly since 2003. I couldn't do without it. Llewellyn's 2017 Daily Planetary Guide: Complete Astrology At-A-Glance (Llewellyn's Daily Planetary Guide)

Llewellyn's 2017 Daily Planetary Guide is an indispensable tool for astrologers and novices alike. One can easily discern what the planets have in store for each day, and retrograde periods are

clearly defined and briefly explained. The basics are presented clearly and succinctly. I am a professional astrologer, and I prefer to carry this in my bag of tricks as opposed to my larger ephemeris. I prefer written material to reference as opposed to digital, and this handy little guide is more than affordable, especially considering the wealth of insight at a glance if one knows how to interpret it.

I've been buying this book for 25 years. I can't live without it. It gives you all the Moon's transits, the eclipses, the retrogrades. It's indispensable if you like astrology.

I buy this book every year. I find it very informative.
