## Customer Reviews

Some time ago I bought the German grammar and found it quite good for a good and fast review. The Italian grammar is also excellent and has allowed me to understand the basics of this lovely language.

Targeted for students and those still learning the Italian language, this is a handy, easy to find rules and examples of everyday Italian

I really wanted something all on one page so that I can put it in my car and study it whenever I am waiting for something. It is perfect. It gives a good overview of most of the basic grammar. I think they covered as much as they can in just two pages.
