Received quickly. I have a number of mosaic books but can tell i like this one a lot too.

This book has great photos and really creative projects. The instructions are clear and easy to follow. I recommend it

I can attest to the service as being great but the book is a gift for Christmas so I do not know about

content

also is a good book for a retired person to hobby

Am very pleased with the ideas presented in this book...am looking forward to trying some new ideas. I made stained glass windows for years and created my own designs...now I am working on making mosaics from all my scrap glass. This book will really help me expand my horizons.

I was hoping for a slightly more technical book--rather than a book illustrating projects, but that's my fault. If you are looking for ideas and how to do them, it would be great to have--so for that I would have liked it. Also, the illustrations are very clear (big plus), and I like that too. I will keep this on my shelf. . . just in case I feel um, artistic?

has some nice projects, good for a beginner. I've been doing mosaics for quite a few years and still found some of the information helpful.
