Synopsis

101 Curses is an incredible collection of spells, and whether you intend to curse anyone or not, this book would make a marvelous addition to any Magic or occult book collector's library. This book is a rare treasure trove of hard to find curses, suitable for almost anyone, whether they are new to the Magickal Arts, or are a seasoned practitioner. Some of these curses are so rotten, I'm ashamed to list them, so you will just have to buy it to find out the evil you could do with this diabolical collection! I feel for the person who angers you after you get this book! It contains an eclectic blend of curses from around the world, and is sure to have a curse for everyone on your naughty list. Spells 1-45 are traditional type spells which require components, most of which are easy to find household items. They include easy to-follow, precise instructions on how to perform the spells from start to finish. Some of the spells even have reversal methods included in case you want to back out and stop what you have unleashed. Spells 45-101 are a fun collection of time honored Irish Curses, which are easy to perform and need no preparation whatsoever. Just spout them out to your intended victim, and your Magick is done. This Huge compilation of over 100 spells covers a wide variety of subjects including curses used for breaking up relationships, love affairs, friendships, marriages, courtships, curses to cause bad luck in gambling, cause someone to lose their home, lose their job, decrease someone's stock, cause someone to become ugly, develop boils, catch the measles, mumps, shingles, break a limb, cause insanity, personal injury, depression, nightmares, headaches, and much more. There are also curses included especially for lawyers, teachers, judges, police officers, politicians, and others. There are also binding spells for when you want to take preventative measures against someone. This is a great book for the aggressive Magician.

If you want to turn someone you know into a werewolf this book will tell you how. That's curse #25. Yes, that's rather silly. Some of these curses are pretty nasty and could be harmful to the practitioner as well as the intended victim. They've been gathered from various undocumented sources and mostly use simple materials, as advertised. That's not saying I'd ever recommend actually doing any of these, with the exception of the bindings in Chapter 6. Those could actually be useful and used in a non-harmful way that's unlikely to come back at you but instructions for bindings like these can be found on the internet. If I were compiling these same bindings I'd title one 'Hey you kids! Get out of my yard!' Listing a binding to prevent trespassing as a 'curse' may be a bit inaccurate. I should say that to reach the 101 number, more than half the number is padded out with a long list of 'Traditional Irish Curses,' such as "May the seven terriers of hell sit on the spool of your breast and bark in at your soul-case." Hell-terriers are positively terrifying. It's not a great book or very useful. It's just a collection of random curses organized by category. A collection of historical cursing techniques - which can be very interesting - would have been much more interesting to me, especially if given the cultural background which is lacking in this little volume.

I enjoyed the philosophy and explanation of witchcraft from this book. I know some of the stuff in here is true from experience.

It says 101 but most of those are just Irish insults. Meh.

Clear instructions with good information. Something not for the beginner. Think about what your doing before you make your casting

I really enjoyed this book. It is very step by step and the items needed are very accessible which, is

very convenient. There are a variety of curses to choose from. As with doing any magic be careful. Keep in mind curses are real. The author of this book is very knowledgeable. This book has sure come in handy for me.

Good book, but I thought it should have some details to go along with some of the curses. Especially the more harmful ones.

Interesting! Thanks!

I read it and liked it
