Customer Reviews

The best Black Letter Outline book I have used. Evidence is an extremely difficult topic, but this book is so great that our professor recommended it!

A thorough, yet concise, outline of all the issues an evidence class could address. The same authors have a treatise, but the outline is much more practical without trading off that much on content.

We are not even half way through the semester, but this book has been a life saver. It is especially helpful if your Prof. is using the Mueller and Kirkpatrick casebook.

Super helpful to breakdown the rules of evidence.
