MAT Flashcard Study System: MAT Exam Practice Questions & Review For The Miller Analogies Test (Cards)

Synopsis

*****Ace the MAT Exam and Get the Results You Deserve***** The MAT exam is a challenging test and your results can make a huge difference when it comes to your future. If you do well on the exam, it can open doors and lead to wonderful opportunities. If you do poorly on the exam, you will find yourself with a lot fewer options. You may have to put your plans for the future on hold, or even give up on them altogether. Preparing for your exam with our MAT Flashcard Study System can help you avoid this fate and give you a big advantage when you sit down to take the test. Thousands of satisfied customers have relied on Mometrix Flashcards to help them pass their exam, and now you can too. When you study with these flashcards, you'll get an in-depth review of each section on the MAT exam. Our MAT Flashcard Study System sections include: The Analogy The Relationships The Strategies ...and much more! We believe in delivering lots of value for your money, so the MAT Flashcard Study System is packed with the critical information you'll need to master in order to ace the MAT exam. Study after study has shown that spaced repetition is the most effective form of learning, and nothing beats flashcards when it comes to making repetitive learning fun and fast. MAT Flashcard Study System uses repetitive methods of study to teach you how to break apart and quickly solve difficult test questions on the test. Our flashcards enable you to study small, digestible bits of information that are easy to learn and give you exposure to the different question types and concepts. With our flashcards, you'll be able to study anywhere, whenever you have a few free minutes of time. Our company has helped thousands of people achieve their education goals. MAT Flashcard Study System can help you get the results you deserve.

Customer Reviews

Learn How to Quickly Solve Difficult MAT Test Questions Here's a little "secret" about the MAT: the MAT is what we in the test preparation field call a "general aptitude" test. While some tests are looking to see what you already know, the purpose of the Miller Analogies Test (MAT), offered by the Harcourt Assessment, Inc. (HAI), is to test your ability to learn. The goal of the MAT is to use a standardized testing process to create an objective assessment of a test taker's knowledge and skills. In other words, it's more about your ability to learn and process new information than what you know. This is good news for those who are serious about being prepared, because it boils down to a very simple strategy: You can succeed on the MAT by preparing in depth for the different question types and being able to take difficult questions and break them down into easier parts that you can quickly solve. Repetition and thorough preparation is a process that rewards those who are serious about being prepared, which means that succeeding on the MAT is within the reach of virtually anyone interested in learning how to handle any question they might face on test day. This is great news! It means that if you've been worried about your upcoming MAT, you can rest easy IF you have a good strategy for knowing what to study and how to effectively use repetition to your advantage. But it also creates another set of problems. If you tried to memorize every single possible thing you can for the MAT, the field of possible things to review would be so huge that you could not hope to cover everything in a reasonable time. That's why we created the MAT Flashcard Study System: we have taken all of the possible topics and reduced them down to the hundreds of concepts you must know and provided an easy-to-use learning method to guarantee success on the MAT. We wanted this system to be simple, effective, and fast so that you can succeed on your MAT with a minimum amount of time spent preparing for it. --Here Are Some of the Features of Our MAT Flashcard Study System Study after study has shown that repetition is the most effective form of learning- and nothing beats flashcards when it comes to making repetitive learning fun and fast. Flashcards engage more of your senses in the learning process- you "compete" with yourself to see if you know the answers to the questions, and the flipping action gets you actively involved in the learning process. Our cards are printed on heavy, bright white 67 lb. cover stock, and are laser printed at 1200 dpi on our industrial printers- these are professional-quality cards that will not smear or wear out with heavy usage. We cover the major content areas on the exam. Our flashcards include an edge that is micro-perforated, which means that you are much less likely to have a painful papercut on your fingers when moving quickly through the cards. Our cards are portable, making it

easy for you to grab a few and study while waiting for the bus or the doctor, or anywhere where you have a spare moment that would otherwise be wasted. Our cards are written in an easy to understand, straightforward style - we don't include any more technical jargon than what you need to pass the test. The cards are a generous size- 3.67 x 4.25 inches- they fit perfectly in your hands and they aren't so small that you have to use a magnifying glass to read tiny type- all questions and answers are in a normal-size print for easy studying. Our cards include in-depth explanations- you won't see any "one word" answers on our cards that require you to go get a textbook to understand why your answer was wrong- all of our cards include generous, thorough explanations so you not only get it right or wrong- but you also know why! We use a font created by Microsoft to make reading easier- this will enable you to absorb more information painlessly during late night study sessions. Our system enables you to study in small, digestible bits of information- unlike using boring textbooks, flashcards turn learning into a "game" you can play until you've mastered the material. It's easy for a friend to help you study- they don't even have to know anything about the MAT- if they can read, then they can quiz you with our flashcards! Now, let us explain what the MAT Flashcard Study System is not. It is not a comprehensive review of your education, as there's no way we could fit that onto a single set of flashcards. Don't get us wrong: we're not saying that repetition will automatically result in a passing MAT score- you have to have some innate ability as well. However, without exposure to the question types and concepts, you cannot possibly hope to do well on the test. After all, it's hard to do well on test or prepare for it when you don't know what's going to be on it. MAT Flashcard Study System is a compilation of the hundreds of critical concepts you must understand to pass the MAT. Nothing more, nothing less. --If you think there's even the smallest chance that these flashcards will help you, you owe it to yourself to try them out. Don't let fear or doubt stand in the way of your opportunity to achieve the test score you need to fulfill your dreams.

I purchased these and never used them. They came as sheets of paper with perforated edges to tear yourself. My main issue with these cards is that multiple questions are on one card. So instead of learning one item per card you had to learn 4 items per card which was not my purpose of using flash cards. I ended up writing my own flashcards so I could have one question per card.

The flash card system is simple and an effective way to learn. A great transition to study mode!

To increase the bank of words, I needed to memorize words in group and I wished that this flashcard had the feature of a thesaurus.

just what the boss wanted

I haven't taken the test yet, but I definitely think that these will be useful!

Love flashcards

So far, I am excited about this study journey with my new material. I would give it a 5. I really like the tips and the way the materials are set up.

I haven't used them very much but I have read through them and they are very informative. I think that they will be a great help on the MAT.
