Monster Hunter: Flash Hunter, Vol. 4

Synopsis

In the world of the hit game from Capcom, novice hunters Raiga, Keres and Torche team up to fight huge monsters! It is an age when monsters rule the world, soaring through the sky, treading the earth and filling the seas. Humanity survives on the fringes, relying on a special kind of hero to defend the people from danger—the Monster Hunters! Bexel vanquishes a Khezu and the disturbance in the mountains seems to have settled, but then another monster appears. Raiga and his companions set out for the hunting ground, but that leaves only two hunters in Pokke Village who are able to fight as two Blangonga monsters driven from their territory approach.

Customer Reviews

Monster Hunter Flash Hunter volume 4 continues our hunters quest to protect Pokke Village from a monster invasion. The artwork of the monsters continues to be gorgeous and really captures the way they move. As far as story is concerned the highlight is Keres history and the scars that it has left on his personality. It gives us a nice look at his father Ivan and how Keres teammates remind Keres of him and not always in the best light. On the other hand this volume tries to tie in video game mechanics but fails to make it feel natural. And that can take you out of the moment briefly. One thing I personally loved as a person who plays Monster Hunter, is the way the manga captures the terror of your first Tigrex hunt. It does a very nice job of recreating the overwhelming presence a Tigrex has. It's probably the best hunt of the series so far.

Daughter loves it

A complete battle volume. Still fighting the monsters from the last volume, switching back and forth between two teams fighting different monsters. Some more background on Keres' father and a lot of talk about what it means to be a monster hunter. Some have selfish reasons, others noble.
