14 Strokes Of Billionaires (Handwriting Expert)

Synopsis

It is said that if you do the things that successful people do, you too will become successful!¹⁴ Strokes of Billionaires unveils 14 specific handwriting strokes, along with their associated personality traits, that when emulated and applied can bring the same outcome as that of successful people.¹⁴ Strokes of Billionaires can help you in:- Identifying the personality traits of successful people- Inculcating the success traits in your personality- Recognizing the specific handwriting strokes that bring about specific success trait- Knowing what exactly a particular stroke looks like, with graphical examples- Apprehend areas to improve- Understanding the exact way to bring about a particular change- (BONUS) the top two personality traits that cap a person's potential and how to avoid them

EXCERPT: Do you see the peak-crossed t-bars? That's what dictates that this great person actually was a visionary. He knew what he was doing even when others around him told that he has gone mad. That is the quality of a visionary - he sees the things that other people can't. After all, the saying "Have goals that big that people call you MAD" are written for such personalities. It is no coincidence that both Gates and Einstein didn't fit into the education system. Similar to Gates, Einstein too was not considered a good student by his teachers. They even refused to recommend him for further employment. Despite all this discouragement and rejection (which many would not be able to endure in today's world), these legends actually challenged and proved themselves that it is not that they are not fit for the education system but, in actuality, it is the other way around: It is the education system that is not fit for them. They literally turned the tables around.-----Should you increase your confidence? Heck yeah! Confidence will help you survive those trying times when God is taking your test. It will help you conquer your fear and beat inaction. It will give you the drive and boost to chase your dreams. Increase your confidence by writing your name or signing more boldly and clearly. Note: Some professions require a person to be diplomatic all the time. Having confidence and a bold attitude in that scenario may lead to more harm than benefit. Consult a qualified graphologist prior to making this change in handwriting, if you think your profession demands diplomacy.-----Another important trait which defines a successful personality is the ability to be creative and innovative. Creativity is an important factor, because it is what helps in generating ideas, which further boils down to be a successful business. A survey done by Fast Company Magazine reported that on asking 1500 CEOs what is the number one thing they want in an employee, majority of them answered "creativity". Creativity is what makes someone stand out from the rest of the crowd. In handwriting, creativity is revealed by having upper loops. The sample shown here is that of Walt Disney. He is the best example known for his creativity and how

he made a fortune out of it.
