"A feeling of dread came over Jack. 'What if...' he said. 'What if...' In the distance, a tree suddenly burst into flames. 'We're looking at a wildfire!' he said." On a magical mission from the mysterious tree house near their home in Frog Creek, Pennsylvania, Jack and his sister Annie find themselves in the wilds of Australia during a drought. Things heat up pretty quickly for this adventuresome pair, as what initially appears to be a campfire turns into something a lot more frightening. Meanwhile,

one exotic animal after another crosses their paths, from koalas to kookaburras to kangaroos. In previous episodes of the Magic Tree House series, Jack and Annie found three of the four gifts they must receive in order to free an enchanted dog from a spell. Now they must track down "a gift from a kangaroo." But can they find this gift before the forest--and all its furry and feathered residents--burns up? This enormously popular series by award-winning author Mary Pope Osborne is full of thrills and enchantment. She manages to infuse each easy-to-read chapter book with heaps of historical, cultural, and geographical information, without ever missing a beat. (Ages 6 to 10)

Jack and Annie are whisked down under to the land of Australia, where they save a baby kangaroo, a koala, and other animals from a raging wildfire.

The boys always enjoy her stories. Jack and Annie with kindness go through many adventures. This book is the end of a 4 part story and the ending begins a new adventure for another day.

Thank you!

Bought for a gift

This is the fourth book in the Magic Tree house series, that Jack and Annie had to go on an adventure to receive a gift. After they received wall 4 gifts, they were able to break the spell their traveling companion (Teddy - a little dog) was under... thereby turning Teddy the dog back into a little boy. We thoroughly enjoyed going on these 4 adventures with Jack and Annie. Now we can't wait to see where the next book in this series will take us! The whole Magic Tree house series is a DEFINITE recommend, for us!

I love having these on Kindle, great for car trips, Dr. visits, and even some parts of church when needed. I highly recommend Magic Tree House books and reading on the Kindle Fire!

We have bought a number of the Magic Tree House series for our grandson and he loves them all, and even does the online test afterward. I understand that they are supposed to be 3rd grade level reading, but our grandson is 7, so if you have a good reader who is interested in learning about things as well, it is a good choice.

I loved the tension of the wild fire and it was a great book I am in love with the magic tree House

I am glad we bought the rest of the set! My boys love these book. I recommend them for young readers or if you have a tween that need "pleasure reading books"
