Customer Reviews

We read this book on the plane to Peru and found the information & insights to be very helpful.

If you’re planning a trip to Machu Picchu, you’d do well to get this book. One of my dad’s lifelong dreams was to hike this trail, and now it is my dream, too! Every question you could think to ask about traveling to and experiencing Machu Picchu is here, organized in a very accessible way through the hyperlinked Table of Contents. The writing is both informative and witty (for the most part); far from a dry read.

All four of Keith McGowan's books are high on my list of keepers in my eBook library. Events, people, place, history and the readers of his books are so respected by this author. One becomes part of his journeys on many levels. Definitely this book would be my best guide if I travel to Machu Picchu which will always be an amazing place. Keith brings it to us through writing, pictures, video and personal reflections. Even if I never do actually go there I am pleased to learn so much about it through the lens of this book. Great book! Helps you make good use of your time and see all you can. Machu Picchu should be on everyone's bucket list!
