## Synopsis

The finale is finally here. The tragedy that ended with multiple deaths, lies and deceit is still fresh to Cali and Compton. They both are facing so many challenges together and apart. There is love lost and love gained. There were lies told and truth revealed. To their surprise, nothing about their arrangement was as real as they thought. After being kidnapped, Cali wakes up in a strange place. A place that belongs to the one person she has never questioned. Her mother. She seeks out answers on the why's of her disappearance. That is just one challenge added to her life. She is a new mother who is torn between her fake husband and her new boyfriend. When she finds out the truth about her life, will she choose to stay with Compton or spend forever with Tre Compton. Compton's list of issues don't stop at Cali being kidnapped. Because of his past wrongs, he has lost the love of his life. Both of them. After having a near death experience, he knows that life is too short. He has a daughter that he needs to be better for. Will he do that? Will he fight for Cali or will he allow her to be happy even if it's not with him? Especially when an old face pops back up in the picture. Amber Joy has faced so much hardship in her young life. From being abused to being taken advantage of. When the one thing she fears happens, will she self-destruct? Or will she use that tragedy and mold it into strength? When she too finds out the truth about her family and where she came from, will she finally get closure? Or will the truth only push her over the edge more? All of these questions will be answered. Love is a crazy four letter word and will have someone do some crazy things. All the actions and decisions made from both Cali and Compton were out of love. The question is, will love conquer all?

Exalent

First , I like to say this was one of the best series that I have ever read. From book 1 you could not help but fall in love with Cali and Compton. A blind man could see this was love at first site. The author kept us wanting more and wanting Cali and Compton to have that scene where they ride in to the sun set .And this story gave us just that, the highs, the lows, and even the in between that's the confusion of them not trusting their love but still acting on their lust for each other. The story flowed from start to finish and I did not want to put it down, had me all in my feelings, great job author, can't wait for your book

Wow who wants to be put in a position that they have to chose between their first love and their current love.. But in the end Cali and Compton finally got it together and almost all the secret was revealed.. Also who would that though that Cali playing the role as Amber big sister would actually have some truth to it.. I so happy that C decide that he was going to do right by Cali this second time around.. What started out as a planned marriage with no attachment whatever turn into them actually falling in love with one another...

I swear I have never read more character growth in a male character than Compton. He's still rude and arrogant but wow he ha matured so much in this story and to put his heart out there to win Cali was amazing to me. I was totally loving him by the end of this book. Tre I was waiting to see what he was about I can't believe that guy I knew there was a flaw somewhere he was certifiable. I loved all of the supporting characters in this story. Momma Banks, Banks, Missy, Sean, Snoop, and even Monty and Lee a little bit although I feel like though this kinda closure for Cali and Compton's story there is definitely room for a few spinoff side stories. Amber and Omario, Sean and Nia and these

secrets that Lee has yet to reveal. I hope we get to find out and see more of these characters. Definitely enjoyed this series.

Wow they've both really matured, Tre didn't surprise me at all he was just too good to be true. Now will we get a story about Lee and Amber, since she's hiding something .... Great job with this series ...

I just love Cali and Compton I knew they were going to eventually get back together because they were made for one another. Tre' laws I knew that fool was crazy smh and he got just what he deserved too. Amber Joy poor baby I can't believe that her foster mother let Demon rape her. Who would of known that Momma Banks and Lee would get along because I just knew that they was going to be fussing through the rest of the book. Amber Joy got her a family that loves her dearly, Cali and Compton tied the knot the right way this time and are expecting this series ended perfectly. Great read love

Cali and Compton I just love them. Compton finally got it right and he got his lil mama. That family had some secrets sheesh I know Amber will have a story because Lee is hiding something

Ladies and gentlemen if you haven't read any books by Ms. Heiress please grab a copy. I've read several of her stories and I've yet to be disappointed. This isn't a bad place to start I loved how thing ended for Compton and Cali. I was undecided on Compton at first but he grew on me. Get your finger ready and go ahead and one click this series.
