Two Weeks In A Land Rover: On Safari In Tanzania

Synopsis

Dance with the Maasai, pull a bushman's bow, greet the dawn from a tent on the endless plains of the Serengeti. This book blends the adventures of three Tanzanian safaris with a wealth of historical, political, cultural and environmental information.

Customer Reviews

Sherry Norman Sybesma is a marketing executive who has written for radio, television, magazines and newspapers. She lives in Richmond, VA with her artist husband Jim McHenry, two dogs and a foul tempered geriatric cat.

This book is a must if you are going to Tanzania on safari. I read it cover to cover without stopping. It was interesting and informative. Even if you aren't actually planning a safari and prefer to live your adventure at home through books, this is a good choice.

This was a gift for my brother who had been on a safari. He let me read it too. It is a true story, well written and a good read.

This was a very interesting book that I just finished reading in preparation for my safari to Tanzania. I would recommend it to anyone going on a safari or thinking about going on a safari. It is short for fast reading, but gives just enough description that I can't wait to be out on the Serengeti or riding in a jeep down into the Ngorongoro Crater to experience Tanzania myself.

I gave this book to my daughter who is hoping to work in a medical clinic in Kenya someday soon.
