Learn How to Break Apart and Quickly Solve Difficult NCE Exam Questions Here's a little "secret" about the National Counselor Examination for Licensure and Certification (NCE): the NCE is what we in the test preparation field call a "content driven" test. While some tests are looking to see what you are ABLE to learn, the purpose of the National Counselor Examination (NCE), offered by the National Board for Certified Counselors (NBCC), is to test your understanding of what you have already learned. The goal of the National Counselor Exam is to use a standardized testing process to create an objective assessment of a test taker's knowledge and skills. In other words, it's more about what you know than your ability to solve clever puzzles. This is good news for those who are serious about being prepared, because it boils down to a very simple strategy: You can succeed on the NCE and become a National Certified Counselor (NCC) by learning critical concepts on the test so that you are prepared for as many questions as possible. Repetition and thorough preparation is a process that rewards those who are serious about being prepared, which means that succeeding on the NCE is within the reach of virtually anyone interested in learning the material. This is great

news! It means that if you've been worried about your upcoming NCE, you can rest easy IF you have a good strategy for knowing what to study and how to effectively use repetition to your advantage. But it also creates another set of problems. If you tried to memorize every single possible thing you can for the NCE, the field of possible things to review would be so huge that you could not hope to cover everything in a reasonable time. That's why we created the NCE Flashcard Study System: we have taken all of the possible topics and reduced them down to the hundreds of concepts you must know and provided an easy-to-use learning method to guarantee success on the NCE. We wanted this system to be simple, effective, and fast so that you can succeed on your NCE with a minimum amount of time spent preparing for it. --Here Are Some of the Features of Our NCE Flashcard Study System

Study after study has shown that repetition is the most effective form of learning- and nothing beats flashcards when it comes to making repetitive learning fun and fast. Flashcards engage more of your senses in the learning process- you "compete" with yourself to see if you know the answers to the questions, and the flipping action gets you actively involved in the learning process. Our cards are printed on heavy, bright white 67 lb. cover stock, and are laser printed at 1200 dpi on our industrial printers- these are professional-quality cards that will not smear or wear out with heavy usage. We cover the major content areas on the exam. Our flashcards include an edge that is micro-perforated, which means that you are much less likely to have a painful papercut on your fingers when moving quickly through the cards. Our cards are portable, making it easy for you to grab a few and study while waiting for the bus or the doctor, or anywhere where you have a spare moment that would otherwise be wasted. Our NCE cards are written in an easy to understand, straightforward style - we don't include any more technical jargon than what you need to pass the test. The cards are a generous size- 3.67 x 4.25 inches- they fit perfectly in your hands and they aren't so small that you have to use a magnifying glass to read tiny type- all questions and answers are in a normal-size print for easy studying. Our cards include in-depth explanations- you won't see any "one word" answers on our cards that require you to go get a textbook to understand why your answer was wrong- all of our cards include generous, thorough explanations so you not only get it right or wrong- but you also know why! We use a font created by Microsoft to make reading easier- this will enable you to absorb more information painlessly during late night study sessions. Our system enables you to study in small, digestible bits of information- unlike using boring textbooks, flashcards turn learning into a "game" you can play until you've mastered the material. It's easy for a friend to help you study- they don't even have to know anything about the NCE- if they can read, then they can quiz you with our flashcards! Now, let us explain what the the NCE Flashcard Study System is not. It is not a comprehensive review of your education, as there's no

way we could fit that onto a single set of flashcards. Don't get us wrong: we're not saying that memorization alone will automatically result in a passing NCE score- you have to have the ability to apply it as well. However, without the foundation of the core concepts, you cannot possibly hope to apply the information. After all, you can't apply what you don't know. The NCE Flashcard Study System is a compilation of the hundreds of critical concepts you must understand to pass the NCE. Nothing more, nothing less. --If you think there's even the smallest chance that these flashcards will help you, you owe it to yourself to try them out. Don't let fear or doubt stand in the way of your opportunity to achieve the test score you need to fulfill your dreams.

This is a good alternative to many of the higher price options that are available for purchase. Try it out for this price.

These flashcards have great questions, but I was somewhat disappointed by the fact that they were so lengthy. It was more like a study guide written on a smaller piece of paper rather than a traditional flashcard. Overall, they were very helpful and I'm glad I purchased them.

The flash cards are not short answer questions and answers by any means. It's more focused on definitions, clusters of names, and information. It's more streamlined than many of the other books and does a good job of isolating topics into manageable portions.

For the Flashcard Study System that I just purchased, I think that as much as these flashcards cost, that they should come laminated and in some type of binder to be able to keep them all together. What I got was a flat box with a lot of flashcards on a sheet (6 to be exact) and then I had to sit down and take these cards apart and then laminate them myself in order to keep them from getting messed up. Personally, I just think that it should be packaged and shipped differently. As for the material on the flashcards, if I know all of that material, then I will ace the NCE with no problems!

It's nice to have these written out for me When I have so much going on.... It would be nice if they with a box.... Nothing I cannot get on my own

I have not taken the NCE yet so I will come back and revise my review once I take the test, however my initial thoughts for this product are as follows. Pros:-You get several cards for the price (approximately 100+ cards in the set, I did not count them like I should have but it's a decent

amount)-It comes with practice questions for the exam which is nice-The amount of information on the cards is sufficient to explain the answer, but not too much where you get bored and start skimming.Cons:-It does not come already ripped apart (you will receive a book sized envelope and of sheets of ~6 cards each and will need to tear apart the cards yourself)-It does not come in a box where you can easily store the cards, and they are not the correct size for a standard note card organization box (they are too tall)-The brand name is on each and every flash card (I like that it states the cards are for the NCE, but I do not like that "Mometrix Media" is in large print on the top of every card.-Minor typos (just looking through the cards as I tore them apart)Because I spent so much money (Almost \$70) I'm disappointed that the cons list is as long as it is. Some of these things (such as not being torn apart, and no box to store them in) are issues that really should not have come up. That is why I gave them 3 stars. If I ace the NCE after the first try I may come back and give them another star.

I ordered the NCE Flashcard Study System and absolutely love it! I clipped each section separately and carry them in my purse, in my car, at home, nearly everywhere I go. They're so handy and pre-perforated so it was a snap to start studying!The material on the flashcards has been extremely helpful and the explanation on the reverse side is awesome. My friend makes her flashcards and it takes endless hours (I tried one time, never again) so I ordered yours and love them! I take them to the beach to study (better than getting sand in my book), use them when I'm waiting at the doctors office, before I go to bed at night, during breaks between counseling sessions at my internship, etc.

Great comprehensive information for the NCE! I recommend buying them, they have the most up to date information including updated diagnosis info related to the DSM V. I studied these flash cards for a month in addition to using the Rosenthal book and passed the NCE.
