# Dental Fear And Anxiety In Pediatric Patients: Practical Strategies To Help Children Cope

## Synopsis

This book is a comprehensive guide to pediatric dental fear/anxiety (DFA) and phobia that will provide practitioners with a full understanding of the etiology, prevalence, assessment, and management of these conditions. The coping styles of children when under stress are explored, with discussion of their relevance to the assessment visit and treatment allocation. Practical treatment techniques are comprehensively covered, from non-pharmacological behavioral strategies relevant for children with no or mild DFA to those approaches more appropriate for children with severe DFA/phobia. The importance of the use of language and communication skills to build rapport and allay anxiety is explored. Relaxation and hypnosis techniques are described, with guidance on how to introduce these to patients and their parents/carers. Techniques that help children cope when receiving injections are detailed, including systematic needle desensitization; these provide practitioners with options to help resolve DFA and phobia regarding needles. Intravenous sedation, including the challenge of cannulation, is covered comprehensively. Furthermore, cognitive behavioral therapy is presented, with suggestion of practical self-help material when appropriate. The closing chapter looks to the future, discussing the barriers to and the changes required for the creation of more child-centered DFA services.

## Customer Reviews

“This is a guide to the management of pediatric dental fear and anxiety (DFA) and phobia to

help practitioners fully comprehend all the factors associated with managing the condition. | The target audience is dental practitioners. Other audiences include students, residents, and allied dental providers. | This is a good quality, comprehensive overview of dental anxiety and phobia in children. The book is also useful in assisting practitioners in effectively managing patients in the dental office presenting with these challenges. (Janet H. Southerland, Doody's Book Reviews, June, 2017)
