Recommended! Easy and simple to follow recipes. Great value. Worth a try. Great dealer!

I gave this as a gift to my child's significant other, and they love it! I'm envious of the various smoothies in it!

I thought this would be like my red/white plaid Betty Crocker Cookbook of decades ago - recipes made with fresh ingredients and pantry staples. This should have been titled the Big Book of Bisquick Breakfasts & Brunch. MANY of the recipes call for various Bisquick mixes - and those that don't often call for other boxed or pre-packaged ingredients. We do not cook this way at all, so this was a waste of money to me. Not at all what I was expecting. For those who regularly rely on boxed mixes, this may be a wonderful cookbook - but we do not use them, so I will not be trying any of these recipes. As a result I cannot speak to the flavor or appeal of any of the actual recipes.

So many yummy recipes! I checked this book out from the library several times before I decided I just needed to buy it!

Many recipes include the ingredient Bisquick, which I don't use because I don't care for it. I would not have purchased the book had I known that. I was really hoping for recipes making food items from scratch.

Great recipes love it

great cookbook

This book is not as good as the title. Many of the recipes have odd ingredients. There are too many drink recipes and not enough quiche or casseroles. I ended up sending it back.
