Spanish: Short Stories For Beginners

Spanish Short Stories for Beginners

11 EASY SPANISH STORIES WITH
ENGLISH GLOSSARIES THROUGHOUT THE TEXT

By Claudia Orea / Daniel Alvares

Synopsis

Learn Spanish and improve your Spanish reading and listening skills with these short stories. You have at your fingertips the Spanish audio recordings and its accompanying PDF. You can follow along with the written text or have an audible and hands-free learning experience with the English translation for the more difficult words. Gain a greater vocabulary that you can use immediately, every day. You will add 1,500+ Spanish words and expressions to your repertoire through the encounter of descriptive sentences and casual conversations woven throughout the stories.

Sharpen your comprehension of the spoken word by listening to the audio via two native Spanish speakers (male and female voices). Learn how to pronounce Spanish words properly by comparing the written word to the audio recording. Beginners can easily memorize vocabulary words with the audio Spanish flash cards. You receive audio in three formats: A slow version of the stories in a male voice which helps beginners improve their pronunciation. A normal speed of those stories in a female voice for intermediate and advanced learners. Train your ears to understand what is being said. Learn the vocabulary with enough time to repeat the words with their English translation with the audio flashcards! These stories are perfect for beginners as well as for those who want to brush up on their Spanish language skills.

ASIN: B0747PNBM4

Best Sellers Rank: #21 in Books > Audible Audiobooks > Language Instruction > Spanish
#91 in Books > Audible Audiobooks > Nonfiction > Travel #1161 in Books > Libros en espa

Customer Reviews

I studied Spanish in school and the stories in this book are an entertaining way to refresh rather than just reviewing vocabulary lists or verb conjugation charts. The one small change

made is putting the key vocabulary words before the story but otherwise this is

an excellent option for someone attempting to brush up on the language.

The book contains a total of ten short stories that revolve around daily themes that are in Spanish as well as English. This book gives us an effective way of pronunciation as well as an English glossary in case if we do not know the meaning of such words. Each chapter contains a quiz that summarizes the story that you have read. Afterwards, the book gives you a summary that you can compare with your own understanding of the short stores. The message behind this book is to have one language that set you in a corridor for life but with two languages, it can open every door along the way (Frank Smith).

I decided to buy this book to brush up on my Spanish since I haven't studied it in a long time and I still consider myself to be a beginner to the language. The book itself is fairly simple for beginners and it has a glossary after each story for complex vocabulary. However, I would not recommend this book for complete beginners, as not all the words in the stories are translated. If anything, it is helpful for those studying Spanish already and need an extra studying boost. Otherwise, this book is great for those willing to study Spanish!

This book was a perfect refresher to my Spanish language skills! It provided great real world short stories and guided me through the conversation. It was easy to follow along and complete the quizzes at the end. I also like being able to hear a native speaker to better tune my abilities

I needed to refresh my memory since i haven't practice Spanish in while , spent a couple months in México, this books helped me to remember several words i forgot the meaning. What I like about this book is that it gives you a vocabulary at the end of each story and also highlight the verbs. The stories are entertaining and very relatable to everyone's daily life. Definitely recommend this book for those that want to continue practicing Spanish.

Spanish: Short Stories for Beginners was an educational and enjoyable read. The stories were neither too monotonous, nor too simple. However, I don't know that a true beginner would be able to read it easily. Certain words in each story are given the English translation, but other words you are expected to know. I took four years of Spanish in high school six years ago. Much of the language came back as I read, but a few of the words I had to look up. I think this book would be great for those such as myself, just looking to brush up on Spanish.

Overall, I really liked it, and I LOVED that it comes with audio. The only thing that bothered me was that the page numbers were completely off.

I took Spanish all throughout high school and was interested in this book because I want to refresh my memory. I like the way this book is laid out in small stories with helpful little vocab lessons. This is great for people who want to get back into it!

After many failed attempts at learning Spanish, I've found something that will work! The short stories paired with the audio is just what I needed to get started. Although I've only completed one story so far, it has already helped me understand Spanish in more ways than I thought in only the first day! I can't recommend this method enough as it uses both audio and visual to teach. If you're like me and have struggled to learn Spanish in the past, this book (with included free audio) is for you. Gracias!
