150 American Folk Songs: To Sing, Read And Play

Synopsis

(BH Kodaly). This valuable song resource contains a wealth of material for classroom singing and reading. The collection is organized into a Kodaly sequence, beginning with the simplest pentatonic tunes and progressing into full diatonic melodies. Other helpful features include lists of rhythmic characteristics, ranges and intervals. Games are included with many songs. A must for every classroom!

Customer Reviews

This is a great book chock full of tons of melodies and tunes for kids or adults to sing or play on instruments. There are games that go along with certain songs too which are great for little ones to help learn music.

good book

This is a great buy. Especially for music teachers for younger elementary students.

Wonderful resource! I took my Kodaly Level I this summer and this book came highly recommended. Glad I bought it!

Great easy to learn songs for the kids! Solfege is specified in the songs as well so you can use songs to teach concepts with them.

got this to help with music classes I do with kids. It has great songs and stories to share with kids.

I was hoping for some songs to use with my third grade students. There were very few songs in the book that I recognized. They are not popular American Folk Songs.

Book arrived in good time and in the specified condition. It has been very useful so far in my elementary music methods class, and will no doubt be helpful in my future.
