# Sex Positions & Dirty Talk Examples: Two Books In One: The Best Sex Positions Ever, How To Talk Dirty, And Kama Sutra

## Synopsis

For many of us, Kama Sutra is still a mysterious and hidden manual for lovemaking that could provide us with the secrets to infinite orgasms and long, prosperous relationships. In reality, the Kama Sutra is a much subtler and more spiritual text than that, which has sometimes been lost in our modern approach to it. In this book, the spiritual element of the original Kama Sutra that promotes closeness and true intimacy is coupled with our modern love of experimentation and sex positivity - creating a fun and streamlined approach to the Kama Sutra that is easy to follow, inspiring, and full of exciting tips and positions to send your partner wild. Discover the rich history of the Kama Sutra and how its original intentions can give a kick to your love life while also teaching you how to respect your partner and truly explore him or her - in every sense possible. Teach yourself how to be more present with a lover so you can have a deeper connection and understand his or her physical and mental needs. Learn about 40 unique and inviting positions for you to try with a partner as well as tips for success and making sure the positions work for you. Dirty talk is something we all love in the throes of passion - even if we don't admit it - but it's also something we aren't all great at. Many of us have tried and found ourselves blushing when our partner laughed at our attempt. However, dirty talk is an important part of lovemaking, and, when used well, it can bring us closer together and open up a relationship to exciting new avenues and more ferocious highs.

## Customer Reviews

Just the thing I needed. This book has some great sexual positions that you can actually do in bed without being an acrobat or bending out of shape. It is a good way to spice things up a little and have some fun with your partner. Not every position will suit everybody, but there is enough variety.

The illustrations are tasteful and not explicit at all so I recommend it for sure. The other book in this bundle is Dirty Talk. I already have that one so I knew what it is about and I like that one too, but sex positions book is more my preferred taste.

It is undeniable that sex plays an important role in marriage. It is something that married couples should both enjoy and explore. I agree with this book that when it comes to your sexual life, you need to be adventurous and be knowledgeable. This book is a big help for couples to spice up their sexual union. It describes and illustrates the different sex positions that the two may want to try and explore. The illustrations provided help a lot so you can have a clear picture on how it is to be exactly carried out so you get the most satisfying lovemaking ever!

This book is not for those who view sex as a sport or a time-passing activity. It said in this book that this is a guide for 'beginners'...I was thinking what, sex and beginners...does it even happen? But actually, this is the best book anyone can find on sex. There isn't JUST SEX. Kama sutra aims to bring together the physical and spiritual elements in sex; which is exactly what is missing in most occasions. After reading this book, I got a more in depth...or... better understanding of how to pleasure my partner in spirit and in body. This book tries to give the message that you are not making love to a 'limp of flesh' but a real 'warm body'. The sex positions that are illustrated here are nothing erotic or crude. If you read through those descriptions, it is clearly written how and why this particular positions makes you enjoy sex. If you are buying this book just to get some new sex positions...or tips on sex - THEN THIS IS NOT THE BOOK FOR YOU. I've heard of kama sutra before, and at that time I thought it was a book of crude sex positions and nothing else, but now I know I am wrong. I feel so strongly about this because the message here really sank into me. I would suggest this as an ideal book for anyone going through a troubled relationship. There was a second book on dirty talking, but I had my mind mostly on kama sutra.

I thought kamasutra was supposed to be pure and give off less naughty meanings of the different sex positions. And yeah I loved the book because of the situations and how much it encourages people to give this lifestyle a try. And then after that comes the dirty talk book which is nice for those kinky moments but it seems like the opposite of the first. Perhaps both books are meant to cover a wider audience together? Puzzling combination nevertheless but I'm not complaining too much as it is great value and I suppose different sex scenarios have different moods and I guess this set makes sure we are prepared.

Amazing books. This was an amazing deal. Two books that complement each other perfectly. First, you have 40 great kamasutra positions to try something new in bed with your partner, and then, my favorite one, the dirty talk examples. I think we often forget about talking when we have sex, and that's a huge mistake. Our sexual lives can have a drastic change if we decide to start talking dirty to our partners, not only while in bed, but during the day too, in order to build sexual tension and make your partner desire you more. I highly recommend this combo.

Great little Kamasutra book. The book identifies and illustrates each kamasutra position there is. The illustrations were clear and the descriptions were brief but captured the essential things to say about each position. If you're looking for ways on how to up your sex life or make your love-making with your partner a little more interesting, then this book would be quite handy. The second book was also a good addition and will give you ways on how to be "sexier" in the bedroom.

Sex life is not just for pleasure. Sex between two people can directly affect their mood, happiness, and relationship. The different types of sex that most of us hear about, the author here suggests we put into practice. I did so not really realize that this sort of position makes it much more intriguing and you will experience legitimate full satisfaction. That book will be exactly what I've always wanted, I've already been waiting for now. My partner and I are gratefully content to be.

This book gives you a streamlined understanding of the Kama Sutra so you can enjoy its many wonders. The Kama Sutra is not just a sex manual but it is a fundamental element of any strong relationship. It sees sex as a form of communication between lovers. This book tells you what Kama Sutra is and how you can put its theory into practice. There are also 40 different sex positions which you can try out with your partner and make your life happier.
