Joshua Berman's first camping trip was in 1973 at the age of 4 months, in a yellow VW. His parents took him car-camping from West Virginia to northern Maine to Niagara Falls. He never stopped

camping for fun, and along the way, found various ways to do it professionally, working for Outward Bound, The U.S. Forest Service, Peace Corps Nicaragua (that was kind of like camping), and for one crazy summer in 2003, as a firefighter with the National Park Service. Joshua has been exploring Colorado for decades. He writes a monthly column for The Denver Post called "Around Colorado." He is also a "Local Expert" for AFAR.com, as well the author of their Colorado guide. These days, Joshua loves cozy car camping with his wife and three daughters as they continue to explore the state together. Joshua is a freelance writer and Spanish teacher based in Boulder. In addition to Colorado Camping, Joshua is the author of Moon Belize, Maya 2012: A Guide to Celebrations in Mexico, Guatemala, Belize and Honduras, Moon Nicaragua, and Moon Living Abroad in Nicaragua. Joshua's articles have appeared in The New York Times, National Geographic Traveler, and Yoga Journal. Find him at joshuaberman.net or @tranquilotravel.

Bought it while on trip so purchased Kindle edition. Useless on Kindle...don't buy. The maps are microscopic on Kindle, cant easily reference.

Well written and very inclusive. I love living in the most beautiful state in the union and spend as much time outdoors as possible. I've gone on five or so trips after purchasing this book and Berman's descriptions have never led me astray or let me down. I've chosen some amazing spots to sleep based on his suggestions for car camping and would recommend anyone else do the same.

Excellent guide. It is well organized and written in a conversational style. I was able to easily find campgrounds near my location at the end of the day so that I could get my tent set up before dark. Highly recommended.

Very helpful this book helped me identify new areas to hike and camp with my family.

The book is organized very well and easy to read.

A very thorough and personal book. Thank you!
