Mizzy McCaskill received her Bachelor of Music degree from Ithaca College and her Master's and Doctorate in Music Education from the University of Kentucky, Lexington. She is a specialist in curriculum design and has written numerous publications concerning folk flutes, the modern Boehm flute, and flute pedagogy. She performs and records as both a flutist and vocalist in folk and classical genres. Mizzy McCaskill received her Bachelor of Music degree from Ithaca College and her Master's and Doctorate in Music Education from the University of Kentucky, Lexington. She is a specialist in curriculum design and has written numerous publications concerning folk flutes, the modern Boehm flute, and flute pedagogy. She performs and records as both a flutist and vocalist in folk and classical genres. Flutist and composer Dona Gilliam received her Bachelor of Music degree from Louisiana State University in Baton Rouge, LA and her masters in Music Composition from the University of Kentucky, Lexington where she also received her Juris Doctorate of Law degree. Dona performs and composes in both folk and classical genres. She is currently a Professor in the School of Music and School of Media Arts and Design at James Madison University in Harrisonburg, VA. With Mizzy McCaskill, she has co-authored numerous Mel Bay books addressing the flute, tinwhistle, fife, and clarinet. --This text refers to an out of print or unavailable edition of this title.

I can read music and I can play brass and reeded instruments. Wanting to get into a bit of 'simple' instrument playing, I picked this and a fife out of 's vast catalog of stuff. The book was easy to understand, though I suspect the song list won't generate much enthusiasm in the younger generation. I'd like to comment on the enjoyment actually playing the songs brought me, but alas, I'm apparently inept when it comes to this kind of instrument. Rather than approach the songs in a tablature type format consisting of diagrams of open and closed holes, it introduces the scale, provides fingerings and gives you a breakdown of musical notation. With a bit of effort you can learn to read music in general from this, rather than learning only how to play the fife.

This is a good book for the beginner through intermediate. It teaches fingerings and blowing technique as well as the music aspect of reading notes and rhythms. It is written for a Bb fife; my son has a G fife, but since he is playing alone, it doesn't matter. Some of the early tunes in the book include playing sharps, which might be a little difficult for the beginner, but it also might produce a better player learning that so early. The tunes carry you through whole notes to sixteenth note; 4/4 time through 9/8. Looks to be an overall very good book to learn with.

Has some good stuff. Obviously written for someone who know a little about music though. That person is not me. I learned a lot though.

I am a complete novice playing musical instruments and this book is easy to understand. The music is for a different flute in a different key than the one I got but it was easy to make an adjustment to get it to work. I closed off the first and last holes and viola it works!

Exactly what I needed

I purchased a fife a while ago and needed to learn to play it. This book really shows you how. It shows proper blowing techniques and fine fingering. It goes from simple to more complex tunes as you learn each fingering. I now play my fife with ease. Great for penny whistles and other 6 hole instruments too.

There is no "fun" with fife. This should be a mandated outside instrument for my daughter. What have I done...

Just the book I need to teach my daughter the fife along with learn it myself too.
