Customer Reviews

If you are looking into traveling to Bali within the next year, this is the book you need.

"Bali Travel Secrets 2015" is packed with information about what you can expect when traveling to Bali, and even gives you emergency numbers to call if you have medical or legal problems. The book is very well laid out, and is quite informative. You will have an enjoyable and memorable visit to Bali, seeing all of the great sights and saving money at the same time, with the help of this book.

A quick guide to the reality of Bali. It hardly take you an hour or so to go through this piece informative. I would recommend this book over an expensive Lonely Planet travel guide. Simple

reason is that this book will actually tell you what to expect and what not to expect in the tropical destination based on the author's own experience. I am really glad that I read the contents since I will be aware of the conditions of Kuta when I go there early next year.

The information is good, but if I would've known the entire book focused only on Kuta - an area I have no intention of visiting - I would not have purchased it.

Do not buy this book. there is nothing to be learned about Bali except some scams. very short on top of it.

Don't pay for this book. Some info good, but mostly not a good book to buy. There are better books.

Lacking in substance. Sorry. No secrets here. Disappointing.
