Customer Reviews

This guidebook for parents includes more than 400 family-friendly sites throughout Montana. Museums, watchable wildlife areas, state and national parks and recreation areas, city parks, and reservoirs are among the sites included. The author is quick to highlight what will keep the kids' interest even at the dustiest county historical society. Each entry includes a description of the site, directions, information about fees, hours, accessibility, and contact information. The author, a mom herself, has visited and tested the kid appeal of nearly every featured site.

This book is unbelievably detailed when it comes to trails to hike etc. However the book is fatally flawed (for me) in that it has absolutely *no* information about lodging! I am planning a trip to Montana with my three kids and I wanted to know about where to stay in Glacier Park, whether we should consider a ranch stay, and if there were once-in-a-lifetime experiences such as a dinosaur dig or a wagon train ride. Not one of these questions were answered by this book! However, once you are at Glacier I imagine the detailed information about trails and scenery (and a few stores etc) would be quite useful.

Montana or beyond, this is a creative, intelligently written guidebook for both nature and natural lovers of cultural and historical resources. Clear, well written stories depict the landscapes in a manner that both entertains and directs children and adults to the wonders that Montana has to offer. Take a drive, book a flight, either way, this book is a delight!

If you want to explore Montana, whether you have kids or not, this is the book to use! There are places to go that are easy to get to with good directions. The hiking trails are easy enough for everyone and there are interesting museums and cultural sites. You will definitely find this helpful and insightful!
