How To Grow A Young Music Lover

Synopsis

How to Grow a Young Music Lover is the ideal guide for parents who want to boost their children's education through music; parents who want to aid in their children's cognitive, motor, and creative development; parents who love music and want their children to do the same; and parents who wish they knew more about music and want their children to have advantages and instruction they did not. The book is an extraordinary resource for homeschooling parents who want an informative, accessible music curriculum and those who want to support their children's instruction in piano, violin, or other instruments. It is also greatly appreciated by grandparents and other caregivers who want to initiate kids into the world of music; early childhood and elementary educators interested in solid, practical ways to teach their classroom about music; and any reader interested in learning more about musical history, terms, and methods. The book will also be well received by fans of musician Charlie Peacock, who wrote the foreword for this new edition.

Book Information

Paperback: 208 pages

Publisher: Shaw Books; Revised & Expanded ed edition (June 18, 2002)

Language: English

ISBN-10: 087788370X

ISBN-13: 978-0877883708

The book will also be well received by fans of musician Charlie Peacock, who wrote the foreword for this new edition.

Cheri Fuller is a mother of three grown children, award-winning author of twenty-eight books, educator, speaker, and lifelong music lover. Her articles on children, learning, and family life have been featured in Focus on the Family, Moody, CHILD, Family Circle, and many other magazines. She and her family live in Oklahoma.

Item not the same as pictured. It's an older version. It should be clearly indicated.

This book presents general information about composers that our homeschool found useful in our studies. I would recommend it. The information is concise and useful in any study of music.

To the reader who complained about dogma, maybe you shouldn't buy a Christian book by a Christian author then. This book is just what it intends to be, a reference for Christian parents on opening up the world of music for their children. It is both practical and poetic. Worth reading.

Let me say...I believe in God and try to live a spiritual life, but give me a break! Had a difficult time getting through this one. Ms. Fuller spends WAY too much time going on about religion, faith and God and not nearly enough time on the idea of teaching kids about music which is why I picked up the book! If I wanted a book on spirituality, I would've gotten one! It seems that every turn, Fuller is finding some excuse to go on about her religious fervor. Why do some Christians feel that they have to hit us over the head with their faith? I was very disappointed at all the dogma I had to wade through to get to what the book was SUPPOSED to be about! I would suggest that you try to find another book on this topic before trying this one.
