#### **Customer Reviews**

It's an OK book highlighting the basic lines however lacks detail. Read this is less than 30 min.kept my interest.

The author tries to put too much information in such a short book rather than only covering the basics. I feel there should bee more illustrations as well to avoid confusion.

A great little book , read it you will enjoy it ! I found it very revealing and a good read . I was not disappointed !

should be a read for everyone

:)

Enjoyed reading this book.

what a waste, I should of listened to the other poor comment.

This is a very fun book. Palmistry is the science of reading lines and features of the palms and fingers to understand the future for each person. It is believed that there is a connection between palmistry and astrology. I can't wait to see what my palm has to say!
