Customer Reviews

My 7-year-old was not very interested in reading in kindergarten and when he started primary school here in Singapore (where kids start reading early), but somehow he was introduced to the Geronimo Stilton series in school and he's become a major fan of the character and the book series and reading in general. With a positive attitude, his reading overall has improved quickly. To enforce this very good new habit of his I bought this CD set for him for Christmas, and nowadays when he asks me if he can use the computer he isn't asking so that he can play online games but so that he can listen to Geronimo Stilton. Sometimes he just listens, sometimes he reads along, but he always enjoys it. He wants to get more of the Geronimo Stilton CDs, but I think these will last him a while. He's listened to the stories two or three times in the one month since he got them. The production

values are pretty good, and the reading voices are lively, the sound effects fun. Cheese nuggets!! have loaded the CDs into my computer - I find it better to have him to sit at a desk and listen to the chapters from a desktop computer rather than the stereo in the living room because it's easier to get out the books if he wants to read along; also, iTunes has helpful statistics, such as 'last listened' to help him remember where he left off, and he's happy that he gets a folder in iTunes all to himself.

I thought the books would be included with the audio Cd's - so I was a little disappointed. I bought them for my daughter who has dyslexia to listen to and follow along with the book. We were able to get the books from the library and the end result worked out well, it helped boost her self confidence of reading chapter books! they shipped quickly and are a cute series. we will be getting more!

We love these books on CD. However, the story titled, "Cat and Mouse in a Haunted House" has completely freaked out my 5 1/2 year old and he is unable to sleep because he is so spooked by this story. Perhaps skip this particular story and save yourself the sleepless nights if you have a child who tends to get scared easily.

While purchased for our six year old grandson, both he and his older brother (who is nine) listened to all three books on the cd in one night. They thoroughly enjoyed it and want to have the next set. This CD has opened up the whole series of "Geronimo Stilton" stories for both boys and they are eager to go to bed at night to listen to this CD over and over as they settle down to go to sleep.

hard to find the story we want to listen to.

My eight year old grandson loves to listen to these books while going to sleep. Great alternative to watching TV. Wish I could find more of these books!

This was a gift for my 7-year-old great-grandson. He loves it!

Good!!!!
