Secret Lives Of The U.S. Presidents: Strange Stories And Shocking Trivia From Inside The White House

Synopsis

Includes all-new chapter about the 45th POTUS, Donald J. Trump. This updated and redesigned edition of *Secret Lives of the U.S. Presidents* features outrageous and uncensored profiles of our commanders in chief—complete with hundreds of little-known, politically incorrect, and downright wacko facts. You'll discover that: Teddy Roosevelt was blinded in a White House boxing match; John Quincy Adams loved to skinny-dip in the Potomac River; Gerald Ford once worked as a *Cosmopolitan* magazine cover model; Warren G. Harding gambled with White House china when he ran low on cash; Jimmy Carter reported a UFO sighting in Georgia. With chapters on everyone from George Washington to Donald Trump, *Secret Lives of the U.S. Presidents* tackles all the tough questions that other history books are afraid to ask: Which president claimed that God struck down Abraham Lincoln on purpose? How many of these folks were cheating on their spouses? And are there really secret tunnels underneath the White House? American history was never this much fun in school!

This light hearted and amusing book gives us a lot of previously unknown details about the Presidents, some of it quite surprising. Did you know that outdoorsman Theodore Roosevelt would eat 12 eggs for breakfast, washed down with huge mugs of coffee, or that another President would retire with a bowl of rum punch beside the bed ?Author Cormac O'Brien is very fair in his assessments though,pointing out that although Lyndon Johnson was very coarse and was damaged by the Vietnam war, he is now seen as having done more for Civil Rights than other Presidents. And although Richard Nixon resigned in disgrace, his visit to and recognition of China laid the groundwork for today's good relations between the two countries.The vital statistics of all the Presidents are interesting. Many have been tall men, both Washington and Jefferson being 6'2" and Lincoln 6'4" and Lyndon Johnson 6'3". But President Madison, at only 5'4" was the shortest of all! The very largest President was William H. Taft who weighed in at 325 lbs and got stuck in the White House bathtub!But Taft was probably the most distinguished public servant of any President. Before his election he was Solicitor General of the United States, then Governor General of the Phillipines. After his one term as President he was a law professor at Yale University and then in 1921 came his crowning achievement, his appointment as Chief Justice of the United States!The most prolific President was John Tyler, who in two marriages fathered 15 children, the last being when he was 70. John Tyler was born in 1790, and his youngest daughter, born 1860, was still alive in 1948 when Truman was President !After his Presidency, Millard Fillmore visited Great Britain and met Queen Victoria, who later said " He is the handsomest man I ever met!" We also learn that 15 Presidents have been Freemasons, the last being Gerald Ford. And that President Hayes (1877-81) wife Lucy banned alcohol from the White House. She was known as 'Lemonade Lucy'The book contains amusing cartoons of each President; John Kennedy being surrounded by young women !

I work at the local Hospital as a volunteer and was heading this book and everyone who came up to my desk asked what I was reading. Almost every one asked where I got it. With all the bad news it is a good lite read and I have really enjoyed it. Will finish today.

I enjoyed the book. Author is a good writer but 3/4 of the way through it started to get too political. Unfortunate because i thought it would be fun and informative. That is why only 3 stars. Too bad the political leanings of the author crept into the writing.

It's exactly what I thought it would be. Good reading for a 3rd grader.But I can't read scholarly books about Lincoln all the time.Did you know that George Washington bought leopard skins to keep his

horses warm?

actually, this was a good book. It does let us see what the inside operations of the white house are, and how the different occupants lived and acted when out of the limelight.

This book was a great read because it is informative with juicy tidbits and a well written, fast read. It is a great book to keep on a shelf for reference post-read or pass around to family. My husband and I both agreed it is 5 stars.

Interesting but at times repetitive. Defiantly biased towards the left of political thought. Was hoping for more little known tidbits of presidential trivia rather than conman knowledge.

Funny now and again but the author does not hide his Democratic party bias one iota. Not very respectful of anyone, especially Republicans.
