# Overcoming Lyme Disease: The Truth About Lyme Disease And The Hidden Dangers Plaguing Our Bodies

## Synopsis

Are you struggling with Lyme Disease or have undiagnosed symptoms that can't be explained? Learn how you can get back to living a normal life without pain and get the validation that the symptoms aren't just in your head. They are real and they are manageable! In March 2013, Jennifer became deathly ill after a routine dental appointment. At the time, Jennifer didn't know the correlation between the dental appointment and her declining health. Jennifer's illness baffled her team of doctors and specialists. In August 2014, Jennifer was finally diagnosed with Lyme disease, after going thru 4 surgeries, and almost died after the first. She was shocked to learn that after 2 weeks of being treated on antibiotics and now bedridden, all of her doctors claimed that they do not treat Lyme disease and the one doctor who would treat Lyme Disease had a 3 month waiting list. For many years Jennifer had been using holistic medicine and had developed a close relationship with her semi-retired Naturopathic Doctor. Jennifer called him while bedridden and that call saved her life. Jennifer created a protocol for herself, with the help of her Naturopathic Doctor, and started treating Lyme like a Cancer, but did so holistically using time-tested healing techniques along with advanced natural therapies. In this tell-all book, Jennifer goes deep into her own experiences of misdiagnosis of Lyme, the struggle she went through to get healthy, and in the process uncovered many hidden coverups in the medical community. She also discovered what is being called "the biggest crime against humanity" because the sickest patients with Lyme can't even get properly diagnosed or disability payment, leaving them to fend for themselves while going untreated. Jennifer shows you how to manage your symptoms, find the right doctors (who will actually help you), and shows how the Real Truth behind the Lyme Disease pandemic. If you have Lyme Disease or if you have undiagnosed symptoms that can't be explained, then you need to read this book. Buy *Overcoming Lyme Disease* today to finally get the answers about Lyme Disease that you've been looking for!

Best Sellers Rank: #59,979 in Books (See Top 100 in Books) #52 in Books > Health, Fitness & Dieting > Diseases & Physical Ailments > Immune Systems

## Customer Reviews

Jennifer Heath is the #1 International Best-Selling Author of the eye-opening book *Overcoming Lyme Disease* and founder of the *Overcoming Lyme Disease Academy*. She has been featured on ABC, NBC, CBS, FOX, USA Today and the Wall Street Journal. Before Jennifer was diagnosed with Lyme disease, she was a stay-at-home mom of three children, who are now all grown, and then a Top Leader, Recruiter, New Business Developer, and National Conference Trainer for Silpada Designs, a Direct Sales Company, for thirteen years. After a horrific, multi-year experience dealing with Lyme disease, Jennifer was able to find the Secrets to Overcoming Lyme Disease. Since then, Jennifer has been coaching and inspiring Lyme patients all over the world by sharing what they can do from home to heal and where they should go for help. Jennifer teaches them about daily, inexpensive ways they can detoxify and nourish their bodies, along with ways to limit their toxic exposure to things they eat and use daily. In her book *Overcoming Lyme Disease*, Jennifer writes about her personal health journey and reveals how she healed her body from Lyme disease. She exposes the truth about our flawed health care system and explains why the #1 cause of death for a Lyme patient is now suicide. *Overcoming Lyme Disease* helps those suffering realize that they do not need to give up hope; it is possible to overcome and live a life full of good health and vitality. *Overcoming Lyme Disease* against all odds is the reason Jennifer wrote the book. She made it her life's mission to educate the public about Lyme disease and to help as many people as she can. Once Jennifer learned that western medicine could not help her, she started her own blog, [www.OvercomingLymeDisease.com](http://www.OvercomingLymeDisease.com), to share her story and the holistic treatments she was doing in hopes of helping other people get better. Jennifer is one of the several caring administrators on a Lyme Disease and Co-infections group on Facebook. It breaks her heart daily to know that so many people are suffering in silence from the #1 World Pandemic that is similar to cancer and AIDS. It is the new Scarlet Letter, to anyone that has Lyme disease! It is going unrecognized and downplayed by doctors, insurance companies, and the "Powers that Be."

Amazing information. Clarified a lot of my questions. I was impressed that the writer used her situation as an opportunity to enlighten and help others.

Awesome book

An amazingly insightful journey into this true survivors journey through hell and back! Not only does the author share ways and means to help a Lyme sufferer get to feeling better, but she also provides intricate, scientific details of the mechanisms behind this disease, which you will not find outside medical journals. There is also evidence provided of a long running profiteering scheme, whereby certain CDC, NIH, and ALDF officers are exposed for their efforts to corner the market on testing, vaccines, and diagnostics, with proof they fraudulently altered testing standards and research and also modified case definitions to suit their bogus vaccine scheme. A must read for anyone seeking relief of the agony this dreaded disease brings, along with a path forward provided within, to seek validation and justice for all sufferers.

I have suffered with Lyme for almost 3 years, misdiagnosed for many more before that as well. My 14 year old son became sick this past Feb and diagnosed as well and is sick. I have what we call Lyme brain which is severe brain fog but this book has kept my attention. It feels like a friend is telling me their story, the TRUTH about Lyme and also teaching me new ways to fight for my health. I just want to hug her and also want to BE her. She is a warrior, a success story and a voice for those of us who are still suffering.

This is one of the best books I have read on Lyme disease. It was very easy to read and I was glued to it I didn't want to put it down. The knowledge in it is great but very easy to understand. It's nice to have a book from somebody who has healed from Lyme disease who is trying to help others in the process. I highly recommend for everybody to read this book including family members of those with Lyme disease so they understand. I know this book will be a great success. Truly one of the best books I have read on Lyme disease.

This book is amazing. Jennifer Heath shares her own hard struggle, very honest and open. She writes about a lot of pain and symptoms and hard treatments that she went through. Not knowing about having Lyme, going to struggle of testing and finding a solution. She offers you why the medical system is the problem and that Lymeies are far away from crazy. So if you want to have a book, that explains your symptoms, that you are not alone with experience when docs do not take you serious, if you want to give sth. to your family, that they understand what you go through, if you want reputation and Infos about treatment...from my heart, as a patient my review is more than 5

stars.

This helped me realize that there are others who had difficult family and friends to deal with in the process of trying to first figure out what is going on second to get your health back. I lost some friends because they thought I was faking it because the information they read on Lyme was you take your antibiotic and you're healed from it. What they did not understand this is a disease that I was fighting through for over 25 years. By the time it was found out I had late stage neurological Lyme. I live in a cul de sac I could not take a walk around it because I could not find my way back home. The cul de sac there are only 6 houses in it. I was truly amazed by family that did not understand. Again it is their ignorance on their parts of not getting proper information of what I was dealing with no compassion at all. The friends that came through and helped my husband on days he was not able to get me to the doctor was outstanding. I had a friend that works 70+ hours a week would come and clean my house every two weeks. I remember the naturopath looking at me and my husband 6 months in and I asked him how I am doing compared to his other Lyme patients. He grabbed my cheeks and looked me straight in the eye and said I thought you were going to die before we even could get started. After we left the Dr.'s office that day my husband sat in the car and cried and said I am sorry I knew you were sick I just did not realize you were that sick please forgive me. I said you're forgiven I knew I was sick I just did not know how sick I was. Great read thank you God bless you!!

This book needed to be written and the truth about Lyme needed to be exposed. Thank you for sharing this to help others who are suffering.
