His recent work includes *The Bill Hodges Trilogy* (an Edgar Award winner for Best Novel), *Finders Keepers*, and *End of Watch* and the story collection *The Bazaar of Bad Dreams*. His epic series, *The Dark Tower*, is the basis for a major motion picture starring Idris Elba and Matthew McConaughey. It is also now a major motion picture starring Bill Skarsgård. Good service excellent product

this is a Stephen king story that you will want to listen to during a snowstorm in the winter with the howling wind outside in the dead of winter!!! its about a group of friends that take turns telling each

other ghost stories I believe its set right around Christmas but trust me this is no Christmas story so turn the lights down and sit by the fire if you have one and get ready for one of the most terrifying stories ever.

This is for the new Re-released audio edition on CD. The audio quality of this release is louder and fuller than the re-released HighBridge editions, which is a shame b/c I think Different Seasons is the only one of these just released editions to be Penguin Audio only. It seems Highbridge dropped the ball. Either way the audio is good and full but the CD's are cheap and skip a lot more than music CDs. Frank Muller is just awesome reading this, sometimes it doesn't even seem as though he's catching his breath while reading. This is a Perfect experience. One of Steve's best with an awesome narrator/reader. Some notes on the story: It really has a different voice than most SK stories, very atmospheric and almost classical. It also has some sneaky Dark Tower references in it. Enjoy!

Very good

Deceptive as usual, King sets the hook with a story that starts off in "Normal" gear and races before you know it into "Spooky" and beyond into gruesome. The story is told in retrospect by an aged attorney who, during his career at a New York law firm, gets invited by a senior partner to join him at a private men's club. Members are greeted and served by the ubiquitous semi-sinister butler-type character. The club and its furnishings have some mysteries of their own that are tantalizing but never fully revealed. The main activity at the club is storytelling, which leads to King's central plot. Christmas time at the club was reserved for a scary story, and a doctor recounts a poignant and horrible tale from his past about a young woman patient "in trouble" in the mid-1930's. Surprisingly, (along with the revulsion) I was saddened by the intimate view of the way women were treated at that time.

Awesome audio. Sat and listened with my coffee and enjoyed every moment. This is the fifth I have bought for the car and end up listening at home

This is a Stephen King short story, but the best part for me (because this is an audio book) is FRANK MULLER narrating. He does spooky extremely well. I'm so glad I got this.

This is a gripping science fiction novella composed by Stephen King. It is about a group of individuals who meet at a private club in New York and tell very strange stories. This particular story is about a person able to continue to function briefly after death. I am being intentionally vague. Of the four stories published together in the work "Different Seasons", this is my least favorite. But I still liked it. This novella is one of four novellas published together by Stephen King. Of the four, this is the most completely science fiction like. It reminded me of a modern Edgar Allan Poe work. I read the story while, at the same time, listening to an audiobook narrated by Frank Muller. Mr. Muller was excellent. His reading is an upgrade over my personally flawed inner narrator.
