Customer Reviews

"The book is an excellent short consult or review...." "The tables of contents are listed alphabetically as well as by systems, which makes it easy to rapidly locate basic information on a given subject." "I find this text to be valuable for locating relevant information quickly to provide a reminder of important aspects of disease. It should prove useful to veterinary students, but more so to veterinarians with a solid scientific background." - Journal of the American Veterinary Medical Association, September 2009 "The editors have done an excellent job of revising this edition. This is a must-have book for the equine practice or the veterinary student." - Veterinary Information Network

I purchased this for my daughter who is in Pre-Vet studies. She loves it and uses it more than we thought she would. It was recommended to her from a Vet that she shadowed this past summer.

I love the 5-minute consult books, and the 5-Minute Equine Consult is no exception. I use the Small Animal version at work all the time, and now I have the equine version at home for my horses. It can be very hard to find one trusted source of information that is comprehensive and at the same time concise, and the 5-Minute Consult is just that. Everything from symptoms to differentials to treatment and prognosis, it's all right there. Awesome book and a great resource for the veterinarian and the horse owner (or one in the same, like me!).

My daughter said that this book is just the one that she needed!! She is becoming a large animal Vet and will help a lot!! Thank You!!

The 2nd updated edition of Jean-Pierre Lavoie and Kenneth William Hinchcliff's Blackwell's 5-Minute Veterinary Consult: Equine is a 'must' for horse vets or any student vet working with horses. It's been fully revised and updated and offers coverage arranged alphabetically for quick searches. The combined knowledge of nearly 200 authorities on the topic makes it a key acquisition for any library catering to horse owners, vets, and students of equine science and health.
